Dear Sir,

*Dear Sir,
Person
JIM STALL*

I bought one of your rifles last year. After the evening hunt my Dad took the gun to unload it for me & when he took the safety off the gun went off. He isn't sure if he had his finger on the trigger or not because it was dark. He thought he remembered at one time you had a recall of certain rifles because of a safety defect. If I give you the ser # & model # could you let me know if this rifle is or isn't one of them. And if it is what should I do about it.

Thank you

Ser # 6435273
