WILMINGTON, DELAWARE 19898

May 23, 1989

Mr. Joseph J. Murray
8922 W. Progress Place
Littleton, CO 80123

Dear Mr. Murray:

Thank you for your recent letter regarding your
Model 700.

Enclosed, for your reference, is a current Remington
gunsmith list. Please contact those gunsmiths that are listed
as "Warranty" gunsmiths. They will perform warranty work on a
no-charge basis and bill Remington. Other listed gunsmiths will
assess a service charge.

If none of the listed gunsmith locations are
convenient for you, please package your Remington firearm and
send it directly to our firearms plant in Ilion, New York 13357,
Attn: Arms Service Division, telephone: (315) 895-7791. Be
sure to include a letter explaining the problem. Our gunsmiths
will then examine your Remington firearm and make any necessary
adjustments.

However, in order to obtain more timely service at
this point, we suggest that you contact one of the listed
Remington Warranty stations.

We hope this information will be of assistance to
you, and we certainly appreciate your continued support of
Remington products.
