

10-9-84

Dear Sir

I just bought a new Remington 700 BDL a few weeks before deer season opened. At the end of a day of hunting a hunter picked me up on the road. After going a few hundred yards I realized I hadn't unloaded the rifle. As I ~~removed~~ removed the safety & started to open the bolt, the gun fired.

This caused damage to the vehicle. I think I should receive some compensation.
