Remington Arms Company, Inc.
Arms Service Division
Llilon, NY 13357

Gentlemen:

I am the owner of a Remington 700 rifle. On two different occasions, the rifle discharged on its own. Because I didn't know why this happened, I considered taking it to a repair shop.

On Sunday, March 20th, I saw a report on 60 Minutes concerning these rifles misfiring. One man lost his foot during one of these mishaps.

I feel now that my rifle is one of the defective one that is out on the market. I am now afraid to use the rifle or have my son use it. Please advise me as soon as possible as to what Remington can do to make this gun safe. If nothing can be done, then please advise what action you will take, such as replacing or recalling my rifle.

I appreciate your prompt response.

Sincerely,

Donald Rellick
