

-2-

This particular model firearm is involved in an on-going recall that began in 1978. Please see attached copy of the notice that was nationally advertised using all medias. There was a very small percentage of triggers that were involved; however, we elected to replace them all in the models listed.

Even though there is nothing wrong with your trigger, we do want to replace it with the new trigger assembly, at no charge to you. Therefore, please advise us if this is agreeable with you. Upon your approval, the trigger assembly will be replaced and the firearm returned to you.

Thank you for having afforded us this opportunity to examine the rifles and report our findings to you, Mr. Rizzo.

Sincerely,

R.H. Potter, Supervisor
