RECEIVED

JUL 24 1986

Dear Mr. Potter

E.F. SIENKIEWICZ R.H. Potter

Thank you for your letter of July 11 re: my
model 660 # 102756 + XP100 # 7504941.

Randy's Antlersmen Shop is unfortunately
about 300 miles from my home. Thus I would
prefer to send the rifle to the factory along with the
XP100. I failed to mention that this rifle
has fired on releasing the safety on one occasion,
no personal injury but a nest hole in the ceiling
of our wall tent. I had not previously considered
the repairs because of the superb triggers on both
these guns. Also you did not indicate if the
scopes are to be removed.
