

MR. SIRS:

A FEW YEARS AGO I PURCHASED A USED REMINGTON MODEL 700 BDL
J.O.G. DURING HUNTING SEASON THAT YEAR, MY GUN DISCHARGED
WHEN I FLIPPED OFF THE SAFETY. AT THAT TIME I WAS
WEARING GLOVES SO I JUST FIGURED THAT MY HAND MUST
HAVE HIT THE TRIGGER, AND I FORGOT ABOUT IT.

THIS PAST SEPTEMBER AFTER FINISHING UP A MORNING MOOSE
HUNTING MY PARTNER AND I RETURNED TO CAMP AND UNLOADED
A RIFLES. AS I FLIPPED OFF MY SAFETY, MY GUN DISCHARGED
AGAIN SO I WAS SURE THAT MY GUN HAD A DANGEROUS
BLEM.

AFTER CONSULTING WITH FELLOW HUNTERS, I LEARNED THAT
I WAS NOT ALONE WITH THIS FAULT SO I DECIDED TO
WRITE TO YOU. ONE STORY TOLD TO ME WAS THAT
RECALL MIGHT HAVE BEEN PLACED ON 700'S YEARS AGO
AND MAYBE MINE MISSED IT. I JUST WANT TO FIND
