Sub: Gun discharges on release of safety

I purchased the rifle (model 700 SOL,
686 ~~00~~ 13) in Alamogordo N.M. in
1975. Over the last 19 yrs the rifle
has inadvertently fired 3 times when I
went from safe to fire to unload the
rifle. I always point the weapon away
anyone when unloading so no injuries were
ever sustained, however it is quite disconcerting
for the rifle to discharge unexpectedly. During
the 3 instances I am 100% positive
