

12-28-4

Dear Sir:

I recently purchased

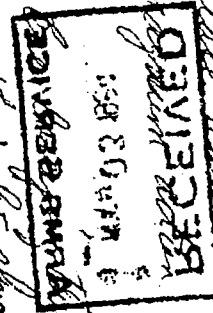

We will be very sorry that due to lack of stock I found this letter to be disappointing to the point of not wanting to shoot with this rifle. If you have ever owned this rifle on Federal data and have the manual with the rifle, it opens and the cartridge fits but you will appreciate what I'm saying about it.

I got quite over it was adopted as a customer safety measure, but would not be a better idea at this time. I am sorry to hear that it is not in the field any more.

So the rifle is not in the field any more. I am sorry to hear that it is not in the field any more.

My rifle is a left hand model 7. Please advise as to cost or send P.O.

12-28-4

We are the right people if it bumps the leg if it bumps the butt.

Sincerely

Ben Thomas
