

Dear Sir:

I called the people at
Wilmington D.C. and
they told me to send rifle
to you and to explain what
the trouble was. During the
period she had this rifle
it has discharged on its
own while closing the bolt.
I have taken this gun to
local gun smith and he
can't find the cause. the
rifle is very dangerous and
she afraid if I use it
any there going to be an
accident.

Thank you
