

12/14/81

Dear Jim,

As per phone conversation. Here is  
the details of the account. —

Subject was sitting in a 3/4 ton Chevy  
pickup on a deer lease. Subject loaded  
rifle with 4 shells in magazine & 1 in  
chamber. Holding gun in left hand,  
with right hand, he tried to move safety  
to "safe" position, safety moved only 50  
1/2 way. So subject moved safety  
to fire position, and in doing so  
the gun discharged ~~the~~ with projectile  
entering his foot. Leaving the bullet  
through the floor board and into the  
right front tire! End!

Very truly yours,

JOHN R. PASHMAN
