

again it fired. Now, I don't know if this rifle has been repaired correctly or not. Obviously the mechanism that was supposedly replaced isn't working properly. This, along with the other listed damage is why I decided to send it back to the company and not deal with the Sporting Goods shop any longer.

I want you to be aware that I am very upset about the damage and the length of time this has taken. As I said before, I haven't even fired my rifle and hunting season is soon to begin. I took my rifle to this gunsmith in good faith. I now have a rifle that I am not proud of. I'm sure the company is aware of the pride a gun owner has in owning a rifle that is in top condition and is handled with the most respect.

I would appreciate if the damage my rifle received be repaired, or my rifle be replaced. If this cannot be done I would like my purchase price be refunded. I paid \$785.86 for my rifle. Thank you for your time in this matter.

Regretfully yours,

P.S. I have sent a letter to the Sporting Goods shop expressing my concern over the damage that was done to the rifle and the unprofessionalism of their gunsmith. I don't know how Remington selects their authorized gunsmiths, but I wouldn't recommend this shop to anyone.
