Arthur Barrett 417 US 41 N PO Box 94 Baruga, MI 49908

Subject: Model 700 Serial #G6292695

RE: Case #1806

Dear Mr. Barrett,

We were sorry to learn about the unfortunate incident your son experienced with your Model 700. We are certainly glad no one was injured, and that you are anxious to get back to enjoying the shooting sports.

As we discussed, I have enclosed a prepaid UPS shipping label and orange "Factory Only" label for you to ship the firearm back to our factory for examination. I have also included a copy of this letter to put inside the shipping box. (The box will come under separate cover). The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly. On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

Sincerely,

Laura Watson

Ship your INSURED firearm by either UPS or Parcel Post to:	
REMINGTON ARMS CO., INC	
ATTN: Arms Service Divison	
- 14 Hoefler Ave	
Ilion, NY 13357	
WARNING: DO NOT SEND LIVE OR SPENT SHELLS IN YOUR FIREARM OR IN THE SAME BOX WITH THE FIREARM. THIS IS A VIOLATION OF FEDERAL LAW. IF YOU FEEL YOU MUST SEND SPENT SHELLS PLEASE SEND THEM IN A SEPARATE PACKAGE AND INCLUDE NAME, ADDRESS (WITH ZIP CODE), TELEPHONE AND MODEL AND SERIAL NUMBER OF YOUR FIREARM.	
:: Record the serial number of your firearm before sending it. :: Pack your firearm for safety and to prevent further damage in shipping and handling. Preferably, ship in a firearm box. (Note: Original boxes may not be returned.)	
:: Remove all accessories from your firearm to prevent loss or damage. :: Provide a return address on both the outside and inside the box. Shipments without a proper return address will be refused.	
:: Ship your INSURED firearm by either UPS or Parcel Post. Remington is not responsible for damage or loss during shipment, so you may elect to purchase insurance from your carrier.	
Charge repairs will be processed using the following guidelines:	
:: Repairs \$75.00 and under will be completed and returned to you C.O.D. (To avoid C.O.D. Charges, please include your credit card number and expiration date with your gun)	
:: For Repairs over \$75.00, you will receive a written estimate detailing the nature of the repair, applicable taxes and shipping. You will have 30 days to approve the repair estimate. Repairs can be paid by check, money order, or credit card (American Express, Discover, MasterCard, or VISA). If you wish, you can expedite repairs over \$75.00 by setting a pre-authorized amount that can be billed to your credit card.	

Laura Watson Consumer Affairs Administrator Remington Arms Company

Subject: Model 700 RE: Case #1751

Dear Ms. Watson,

I am extremely disappointed and still shaken up by the performance of this rifle. I do not want this rifle returned to me. I am still having bad dreams about that day, and I am happy that this firearm is leaving my collection.

I have purchased Remington rifles and shotguns since I began hunting 18 years ago. I saved my lunch money from school for more than two years to buy my first Remington 700 mountain rifle chambered in .243. I still hunt with that rifle today, have killed more than 20 whitetails with it, and would not part with that rifle for anything. I now own four model 700's, four 870's, and a very old Remington rolling block. I trust Remington, and I trust that you will do the right thing with this defective firearm. I consider myself extremely lucky that the situation did not cause any fatalities.

The events unfolded as follows: I and four other guys hunt 7 miles deep in a roadless area for elk every year. Rip and I are the only two that carry our own rifles into camp. Everyone else packs them on mules. We rely so heavily on our rifles, that we take the absolute best care of them, and do not let them out of our sight. Rip and I hunt together every day of the season. He always watches out for me because I am suffering from a rare degenerative liver disorder awaiting a transplant, and any injuries incurred can be life threatening if immediate action is not taken. Opening day of the season brought 11 inches of fresh snow, and Rip and I hunted about 75 yards apart, high man and low man, walking side hill on some steep slopes in heavy pine cover. I was careful to keep the snow out of my rifle action and put a piece of black electrical tape over my barrel to prevent moisture or debris from entering the barrel. It was about 20 degrees Fahrenheit that day. Back at camp that night I worked the action of the rifle and wiped down all of the metal parts with a rag sprayed with Rem-oil. I removed the bold and made sure that it was clean and lightly oiled. I do not over lubricate because the scent of the oil can get on my hands and clothing, so I am careful to only lightly wipe all surfaces. The second day saw another two inches of fresh snow and we were hunting farther apart at a lower elevation following fresh elk tracks. I opened my action to ensure a round was in the chamber and then eased off the safety to make sure that all parts were moving freely and smoothly. As I did, the rifle discharged and all I saw was blood all over the snow, scope, stock, and my jacket. I was so scared my knees were literally knocking together. I looked down and my hand was covered in blood and I could see blood pumping out of

my thumb. I thanked God that my initial thought that I had shot myself was not the case, and that the recoil of the gun had imbedded the safety about a half an inch under my thumbnail. I immediately opened the action and sat the rifle against a tree. Everyone in camp got on the radio to see if it was me that shot. I could not answer them because I was shaking too badly. I quickly opened my pack and began tearing into my first aid kit to bandage my thumb. Since my white blood cell count is so low, and my platelet count is a borderline hemophiliac level, I knew I had to work fast to slow my dropping blood pressure. I took a chance and did not sterilize the wound immediately out of fear of too much blood loss to make it the two miles back to camp. The rest was just purely miserable. I sat in camp for the next four days with a defective rifle, and a big red thumb while everyone else hunted.

I have not cleaned the gun since the incident. It is exactly as it was on that day. So, hopefully the problem can be diagnosed and that this will not happen to anyone else.

I have researched this problem and found out that Remington was aware of this in their model 700 safety mechanisms. I was not informed of this problem when I purchased the firearm, and would like to see Remington move sincerely in the right direction in keeping a more than loyal customer. As I stated before, I do not want this rifle returned to me. I expect to be compensated for the brake in period of the barrel, the time it took to sight in, the threat to my life and those of my hunting partners, and for my loss and expense of the most important week of my year, elk season. I am simply requesting a new Remington rifle in the make and model of my choosing. I feel that this request is more than fair, and would be much more feasible than elevating this matter any further.

Please feel free to contact me with any further questions or comments @ 541-331-4317.

Sincerely,

Patrick Barry

### Remington.

November 12, 2007

Patrick Barry 2795 Anderson Ave Suite 106 Klamath Falls, OR 97603

Subject: Model 700 RE: Case #1751

Dear Mr. Barry,

We were sorry to learn about the incident you experienced with your Model 700 rifle. I can imagine that was quite a scare for you. We are certainly glad that your injuries were not any more serious, and we appreciate you contacting us so we can determine the cause of the incident.

As we discussed, I have enclosed a prepaid UPS shipping label and orange "Factory Only" label for you to ship the firearm back to our factory for examination. I have also included a copy of this letter to put inside the shipping box. (The box will come under separate cover). The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly. On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

Sincerely,

Laura Watson

Thomas Biggerman 1898 Fairmount St Paul, MN 55105

Subject: Model 700 Serial #A6772093

RE: Case #1786

Dear Mr. Biggerman,

We were sorry to learn of the unfortunate incident that you experienced with your Model 700 rifle. We are certainly glad that no one was injured, and that you are anxious to get back to enjoying the shooting sports.

As we discussed, I have enclosed a prepaid UPS shipping label and orange "Factory Only" label for you to ship the firearm back to our factory for examination and replacement of the trigger assembly under our Safety Modification program for \$20. I have also included a copy of this letter to put inside the shipping box. (The box will come under separate cover). The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly. On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

Sincerely,

Laura Watson

PI buzzing in ear

PD hole in roof Cause: 4079 Other - Unexamined S

Concern:1008 Fired on Bolt Closing

 $\mathbf{C}$ 

12/11/07-cust purchased a few years ago hasnt used gun. When he cambered a round, the bolt wouldnt close and lock down. He would have to force it. If he took the safey off, put the shell in, the bolt would lock down with Remington shells. When he tried some Weatherby round, the gun fired when he closed the bolt. Put a hole in the roof of his house. Slight buzzing in rt ear when it happened.lw

Subject: Model 700 Serial #C6400722

RE: Case #1857

Dear Mr. Boccia,

We were sorry to learn about the unfortunate incident you experienced with your Model 700 rifle. As I understand it, you had difficulty getting the bolt to lock down. It would only lock down with the safety off and the gun discharged when you closed the bolt. We are certainly glad that no one was injured, and that you are anxious to get back to enjoying the shooting sports.

As we discussed, I have enclosed a prepaid UPS shipping label and orange "Factory Only" label for you to ship the firearm back to our factory for examination. I have also included a copy of this letter to put inside the shipping box. (The box will come under separate cover). The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly. On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

I'm sending my Rifle to have you find out why it is hang firing. I've had trouble for the last few years with it occasionally hang firing . You never know when it will happen. Most of the time it fires in a few seconds after the trigger has been pulled, but it has fired after the safety was put back on and then took back off. Which scared the \*! @# out of me. I swore I would never take it back a field. I've had several so called gunsmith look at it, but none have fixed it! I've owned my gun since 1974 or 1975. I bought the rifle because of the name brand, and because of how accurate it was said to be. Please check it over see if it was a factory problem and let me know how much it would cost to fix it! My Name is, David Booe My Address is, 1101 North Washington

Complete ATF Form 3310.4 For Multiple Purchases Of Handguins (See Instruction to Transferor 13.)

31. Trade/corporate name and address of transferor (seller) (Hand stamp may be used.)

12901 Cabela Drive Fort Worth, TX 76177 32. Federal Firearms License Number (Complete 15 digit FFL Number.) (Hand stamp may be used.)

FFL# 5-75-439-01-8F-02564

On the basis of (1) the statements in Section A (and Section C if the transfer does not occur on the day Section A was completed); (2) my verification of the identification noted in question 20a (and my reverification at the time of transfer if the transfer does not occur on the day Section A was completed); and (3) the information in the current State Laws and Published Ordinances, it is my belief that it is not unlawful for me to sell, deliver, transport, or otherwise dispose of the firearm(s) listed on this form to the person identified in Section A.

The Person Transferring The Firearm(s) Must Complete Questions 33-36. For Denied/Cancelled Transactions,
The Person Who Completed Section B Must Complete Questions 33-35.

33. Fransferor's/Seller's Name (Please print.) 34. Transferor's/Seller's Signature 35. Transferor's/Seller's Title is Completed 1/1/9/0)

#### Important Notices

- 1. Actual Buyer: For purposes of this form, you are the actual buyer if you are purchasing the firearm for yourself or otherwise acquiring the firearm for yourself (for example, redeeming the firearm from pawn/retrieving it from consignment, firearm raffle winner). You are also the actual buyer if you are legitimately acquiring the firearm as a gift for a third party. ACTUAL BUYER EXAMPLES: Mr. Smith asks Mr. Jones to purchase a firearm for Mr. Smith Mr. Smith gives Mr. Jones the money for the firearm. Mr. Jones is NOT the actual buyer of the firearm and must answer "no " to question 11.a. The licensee may not transfer the firearm to Mr. Jones. However, if Mr. Brown goes to buy a firearm with his own money to give to Mr. Black as a present, Mr. Brown is the actual buyer of the firearm and should answer "yes" to question 11.a. Please note, if you are picking up a repaired firearm for another person, you should answer "n/a" to question 11.a.
- 2. Purpose of the Form: The information and certification on this form are designed so that a person licensed under 18 U.S.C. § 923 may determine if he or she lawfully may sell or deliver a firearm to the person identified in Section A, and to alert the buyer of certain restrictions on the receipt and possession of firearms. This form only should be used for sales or transfers where the seller is licensed under 18 U.S.C. § 923. The seller of a firearm must determine the lawfulness of the transaction and keep proper records of the transaction. Consequently, the seller must be familiar with the provisions of 18 U.S.C. § 921-931 and the regulations in 27 CFR Part 478. In determining the lawfulness of the sale or delivery of a long gun to a resident of another State, the seller is presumed to know applicable State laws and published ordinances in both the seller's State and the buyer's State.
- 3. Background Checks: The Brady law, 18 U.S.C. § 922(t), requires that prior to transferring any firearm to an unlicensed person, a licensed importer, manufacturer or dealer must first contact the National Instant Criminal Background Check System (NICS). NICS will advise the licensee whether the system finds any information that the purchaser is prohibited by law from possessing or receiving a firearm. For purposes of this form, contacts to NICS include contacts to State agencies designated to conduct NICS checks for the Federal Government. WARNING: Any seller who transfers a firearm to any person they know or have reasonable cause to believe is prohibited from receiving or possessing a firearm violates the law even if the seller has complied with the background check requirements of the Brady law.
- 4. Prohibited Persons: Generally, 18 U.S.C. § 922 prohibits the shipment, transportation, receipt, or possession in or affecting interstate commerce of a firearm by one who: has been convicted of a misdemeanor crime of domestic violence; has been convicted of a felony, or any other crime, punishable by imprisonment for a term exceeding one year (this does not include State misdemeanors punishable by imprisonment of two years or less); is a fugitive from justice; is an unlawful user of, or addicted to, marijuana or any depressant, stimulant, or narcotic drug, or any other controlled substance; has been adjudicated mentally defective or has been committed to a mental institution; has been discharged from the Armed Forces under dishonorable conditions; has renounced his or her U.S. citizenship; is an alien illegally in the United States or a nonimmigrant alien; or is subject to certain restraining orders. Furthermore, section 922 prohibits the shipment, transportation, or receipt in or affecting interstate commerce of a firearm by one who is under indictment or information for a felony, or any other crime, punishable by imprisonment for a term exceeding one year.

## Dear Remington,

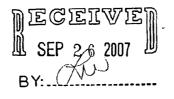

I inherited my Father's rifle it's a model 700 BDL 30-06 cal. sn# 67897093 Since I already had a 742 in the same cal. It sat for some time, until I sold the 742. My cousin and I were getting ready for the fall deer hunt about 10 years ago, I was preparing to shoot my rifle and it fired when I took it off safe, I was quit fortunate to have the muzzle pointed in a safe direction, it did it once more when the rifle was empty and then worked properly the rest of the season. I cleaned and stored the rifle until the next season, checking the rifle while it was empty the same thing happened, firing when taking it off of safe only failing once or maybe twice then working perfectly through out the season, I find myself constantly checking the safe and always wondering when I'm on my stand if my rifle is going to go off accidentally or not. This only seems to happen when it has been stored for long periods of time, months not days. I usually choose to use another rifle.

I've come to a point where I can't sell it and I wouldn't want a family member or friend to own it, you just can't trust it.

Could you please help me out?

Sincerely, Richard Carlson 3050 11<sup>th</sup> Ave. So. Minneapolis, MN 55407

Deur Sir,

Lehalf. Allen the vill was leaght to my Shep I tomuclish removed Dagle to dieck Chamber i upon removed of Safety localed Problem is one that lapped on Occasion, not considerty, Sere would have been a unsitting they if am was loaled when I snapped on me.

Please fix this problem. This is not the first soo model him seen do this. Hopeipp the last: 398-

**IG6462677** 

I bought this MOD. 700 REM. I

THAT LESS HAM A PEX OF SHELLS OUT OF

IT. I WAS GOING TO CHECK my Steep to make

SURE IT WAS STILL DWN AND THE GUN

WENT OFF WHEN I TOOK IT OFF SAFTY. THE

GUN HAS WENT OFF SEVERAL TIMES WHEN I

RELEASE THE SAFTY WITHOUT A SHELL IN IT.

I WOULD LIKE TO HAVE A NEW GUN OR

HAVE IT FIXED RIGHT. THE GUN HAS NEVER DEEN

WORKED ON AS FAR AS MY KNEWLEGE. THE GUN

IS NOT SAFE THE WAY IT IS DECAUSE YOU CAN'T

TRUST THE GUN ANYMORE.

NOTE: In order to better service our customers s Ship your INSURED firearm by either UPS or Pa		are sent to a c	ertified Reming	ton Premier /	Authorized Repair Center.

① WARNING: DO NOT SEND LIVE OR SPENT SHELLS IN YOUR FIREARM OR IN THE SAME BOX WITH THE FIREARM. THIS IS A VIOLATION OF FEDERAL LAW. IF YOU FEEL YOU MUST SEND SPENT SHELLS PLEASE SEND THEM IN A SEPARATE PACKAGE AND INCLUDE NAME, ADDRESS (WITH ZIP CODE), TELEPHONE AND MODEL AND SERIAL NUMBER OF YOUR FIREARM.

:: Record the serial number of your firearm before sending it.

Remington Arms Co., Inc. Attn: Arms Service Division

14 Hoefler Avenue Ilion, NY 13357

:: Pack your firearm for safety and to prevent further damage in shipping and handling. Preferably, ship in a firearm box. (Note: Original boxes may not be returned.)

:: Remove all accessories from your firearm to prevent loss or damage.

:: Provide a return address on both the outside and inside the box. Shipments without a proper

return address will be refused.

:: Ship your INSURED firearm by either UPS or Parcel Post. Remington is not responsible for damage or loss during shipment, so you may elect to purchase insurance from your carrier.

Charge repairs will be processed using the following guidelines:

- :: Repairs \$75.00 and under will be completed and returned to you C.O.D. (To avoid C.O.D. Charges, please include your credit card number and expiration date with your gun)
- :: For Repairs over \$75.00, you will receive a written estimate detailing the nature of the repair, applicable taxes and shipping. You will have 30 days to approve the repair estimate. Repairs can be paid by check, money order, or credit card (American Express, Discover, MasterCard, or VISA). If you wish, you can expedite repairs over \$75.00 by setting a pre-authorized amount that can be billed to your credit card.

Subject: 700 Rifle A6887450

6/22/2007

Jeff,

We received the rifle you sent in and found the Trigger assembly to be contaminated with dried and sticky lubricant residue, also the trigger settings were adjusted outside of the factory specifications. Your firearm also has the bolt lock which means it has to be taken off safe to open the bolt. We have a program called the bolt lock modification program - we will clean the action and install a complete new trigger assembly without the bolt lock feature for \$20. Once you receive the rifle you will be able to open the bolt with the safety in either the off or on position.

We were unable to read the first 3 digits of your phone number - please supply that number. You wanted us to contact you to get return shipping information - please supply that information.

P.O. BOX 6. Los molines, CA 96055 (530) 384-1774 jedittes e sbeglobal·net Dear Sirs, I am sending this Remington 700 .30-06 for a safety-related repair issue. (serial # A6671045) This rifle, purchased new by my mother in the mid-to late 1970's, has spontaneously discharged twice on two seperate hunting trips. In both cases, my mother says she did not have her finger on the trigger. I can't remember exactly, but it fired either when she flipped the safety, or chambered a rounct. I'm not certain which but it scared her enough that she packed the I recently inherited the rifle, and a friend told me about a Model-700 safety recall that he'd heard about on a T.V. News-show. I'd like to send you this rifle for the repair and certification mentioned on your web-page -I'd like to use this ritle again her deer and wild Pig hunting.

Called customer for Gor Credit Conditate back working an coul back

October 9, 2007

Hello Remington Arms,

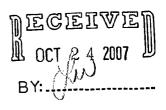

The enclosed rifle has a serious safety issue. When the safety is flipped from the safe position to the fire position the rifle shoots. I fired the rifle several times from a bench position to duplicate the problem just to make sure it wasn't something I did to cause the firing. It did fail a couple more times.

I would like the rifle be upgraded thru your Safety Modification Program and contact me for credit card information for the cost of the repairs. Do not ship COD.

You

Discussion Thread

Note (Norma) - 08/03/2007 12:01 PM Assigned & forwarded to Laura Watson

Customer (Troy Foster) - 08/01/2007 10:05 PM

Today I loaded a single shell into my model 700BDL(I never load more than that for safety reasons) set the safety to safe position, and stood watch where varmint activity had been occuring. After some while I elected to stop and entered the house. I aimed the gun away from any persons and unlatched the safety. When I attempted to eject the shell by activating the bold, the weapon discharged - in spite of having my fingers well away from the trigger or trigger guard. I own many dozens of firearms and have been shooting for over 45 years. This is the first time any firearm has unexpectedly fired. Condiderable damage was done to the interior of my house, and moreover, both my wife and I were in a close environment, and both of us are suffering ringing of the ears now.

My opinion is that this firearm is defective in design. I keep all my firearms clean, properly lubricated, and report any problems to a competent gunsmith. I had no reason to believe this arm was in any condition less than perfect.

I am now very concerned with my firearm, and other Remingtons I own. Please advise what action I need to take to a) get my firearm in safe operating condition, b) get re-imbursed for the damage to my home, and c) have a hearing test for both my with and me.

Thank you. Troy Foster 209-966-2962

## Remington<sub>®</sub>

Troy Foster PO Box 245 5188 Hwy 49N Mariposa, CA 95338

Subject: Model 700 RE: Case #1441

Dear Mr. Foster,

We were sorry to learn of the unfortunate incident that you experienced while varmint hunting at your home. As I understand it, the rifle fired in your home when you opened the bolt to unload it, striking a door and door casing. We are certainly glad that no one was injured and that you are anxious to get back to enjoying the shooting sports.

As we discussed, I have enclosed a prepaid UPS shipping label for you to ship the firearm back to our factory for examination and repair. I have also included a copy of this letter to put inside the shipping box. (The box will come under separate cover). The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the rifle is logged in correctly. On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

Sincerely,

Laura Watson

Discussion Thread

Note (Norma) - 08/03/2007 12:01 PM Assigned & forwarded to Laura Watson

Customer (Troy Foster) - 08/01/2007 10:05 PM

Today I loaded a single shell into my model 700BDL(I never load more than that for safety reasons) set the safety to safe position, and stood watch where varmint activity had been occuring. After some while I elected to stop and entered the house. I aimed the gun away from any persons and unlatched the safety. When I attempted to eject the shell by activating the bold, the weapon discharged - in spite of having my fingers well away from the trigger or trigger guard. I own many dozens of firearms and have been shooting for over 45 years. This is the first time any firearm has unexpectedly fired. Condiderable damage was done to the interior of my house, and moreover, both my wife and I were in a close environment, and both of us are suffering ringing of the ears now.

My opinion is that this firearm is defective in design. I keep all my firearms clean, properly lubricated, and report any problems to a competent gunsmith. I had no reason to believe this arm was in any condition less than perfect.

I am now very concerned with my firearm, and other Remingtons I own. Please advise what action I need to take to a) get my firearm in safe operating condition, b) get re-imbursed for the damage to my home, and c) have a hearing test for both my with and me.

Thank you. Troy Foster 209-966-2962

# Remington.

August 6, 2007

Troy Foster PO Box 245 5188 Hwy 49N Mariposa, CA 95338

Subject: Model 700 RE: Case #1441

Dear Mr. Foster.

We were sorry to learn of the unfortunate incident that you experienced while varmint hunting at your home. As I understand it, the rifle fired in your home when you opened the bolt to unload it, striking a door and door casing. We are certainly glad that no one was injured and that you are anxious to get back to enjoying the shooting sports.

As we discussed, I have enclosed a prepaid UPS shipping label for you to ship the firearm back to our factory for examination and repair. I have also included a copy of this letter to put inside the shipping box. (The box will come under separate cover). The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the rifle is logged in correctly. On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

Sincerely,

Laura Watson

December 4, 2007

Bonnie Grant PO Box 447 35980 Hwy 9 E Seminole, OK 74868

Subject: Model 700 Serial #G6251837

RE: Case #1817

Dear Mrs. Grant,

We were sorry to learn about the unfortunate incident your husband, Charles, experienced with his Model 700 rifle. As I understand it, the rifle fired when he took the safety off while he was inside a metal deer stand. We hope his hearing returns to normal shortly as we work together to resolve this matter.

As we discussed, I have enclosed a prepaid UPS shipping label and orange "Factory Only" label for you to ship the firearm back to our factory for examination. I have also included a copy of this letter to put inside the shipping box. (The box will come under separate cover). The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly. On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

Sincerely,

Laura Watson

**Medical Status** Claims Repair Est. Codes **Medical Treatment** PI PD hole through wall Cause:4039 No Fault Found Unknown Concern:1008 Fired on Bolt Closing C

9/17/07-cust claims accidental discharge. Had scope mounted on rifle. He was cycling rounds in it in his apt to see how it feeds. Closed the bolt and gun discharged. Not sure if his finger hit the safety or not. Claims he did not touch the trigger. Round went through the wall to another apt. No injuries. He called police as he was worried and wanted to be sure no one was hurt or worse. He may be charged with unlawful discharge of weapon. Police have his firearm. He will not get it back until after his court date in Oct. He also notated that when the magazine box is full, the rounds dont feed properly. Seems more concerned with getting it back for hunting season.lw

RE: Case #1561

Dear Mr. Green,

We were sorry to learn of the unfortunate incident that you experienced with your Model 700. As I understand it, you experienced an accidental discharge of your rifle when you were cycling some rounds in your apartment. We are certainly glad that no one was injured and that you are anxious to get back to enjoying the shooting sports.

As we discussed, I have enclosed a prepaid UPS shipping label and orange "Factory Only" label for you to ship the firearm back to our factory for examination and repair. I have also included a copy of this letter to put inside the shipping box. (The box will come under separate cover). The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly. On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

Sincerely,

Laura Watson

WARNING: DO NOT SEND LIVE OR SPENT SHELLS IN YOUR FIREARM OR IN THE SAME BOX WITH THE FIREARM. THIS IS A VIOLATION OF FEDERAL LAW: IF YOU FEEL YOU MUST SEND SPENT SHELLS PLEASE SEND THEM IN A SEPARATE PACKAGE AND INCLUDE NAME, ADDRESS (WITH ZIP CODE), TELEPHONE AND MODEL AND SERIAL NUMBER OF YOUR FIREARM.	·
:: Record the serial number of your firearm before sending it. :: Pack your firearm for safety and to prevent further damage in shipping and handling. Preferably, ship in a firearm box. (Note: Original boxes may not be returned.)	
:: Remove all accessories from your firearm to prevent loss or damage. :: Provide a return address on both the outside and inside the box. Shipments without a proper	
return address will be refused.	
:: Ship your INSURED firearm by either UPS or Parcel Post. Remington is not responsible for damage or loss during shipment, so you may elect to purchase insurance from your carrier.	
Charge repairs will be processed using the following guidelines:	
:: Repairs \$75.00 and under will be completed and returned to you C.O.D. (To avoid C.O.D. Charges, please include your credit card number and expiration date with your gun)	
:: For Repairs over \$75.00, you will receive a written estimate detailing the nature of the repair, applicable taxes	

and shipping. You will have 30 days to approve the repair estimate. Repairs can be paid by check, money order, or credit card (American Express, Discover, MasterCard, or VISA). If you wish, you can expedite repairs over

\$75.00 by setting a pre-authorized amount that can be billed to your credit card.

John Green 1917 Palmeto Dr. Apt D Albemarle, NC 28001

Subject: Model 700 Serial #G6544428

RE: Case #1561

Dear Mr. Green,

We were sorry to learn of the unfortunate incident that you experienced with your Model 700. As I understand it, you experienced an accidental discharge of your rifle when you were cycling some rounds in your apartment. We are certainly glad that no one was injured and that you are anxious to get back to enjoying the shooting sports.

As we discussed, I have enclosed a prepaid UPS shipping label and orange "Factory Only" label for you to ship the firearm back to our factory for examination and repair. I have also included a copy of this letter to put inside the shipping box. (The box will come under separate cover). The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly. On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

Sincerely,

Laura Watson

Richard Grimes PO Box 144 Hudson, NC 28638

Subject: Model 700 Serial #D6271334

RE: Case #1790

Dear Mr. Grimes,

We were sorry to learn of the unfortunate incident that you experienced with your Model 700 rifle. We are certainly glad that your injuries were not any more serious, and that you are anxious to get back to enjoying the shooting sports.

As we discussed, I have enclosed a prepaid UPS shipping label and orange "Factory Only" label for you to ship the firearm back to our factory for examination. I have also included a copy of this letter to put inside the shipping box. The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly. On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

Sincerely,

Laura Watson

t loss or damage.

side the box. Shipments without a proper

Post. Remington is not responsible for

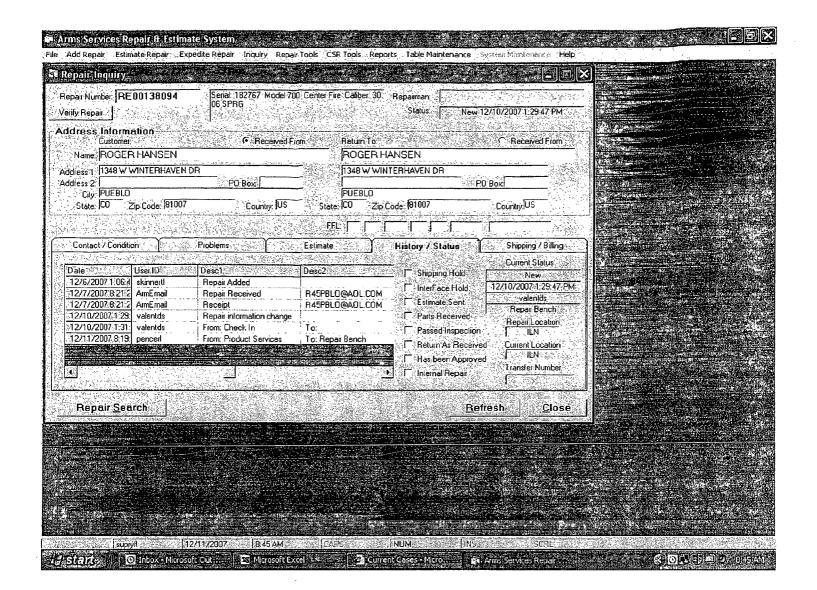

damage or loss during snipment, so you may elect to purchase insurance from your carrier.

Charge repairs will be processed using the following guidelines:

:: Repairs \$75.00 and under will be completed and returned to you C.O.D. (To avoid C.O.D. Charges, please include your credit card number and expiration date with your gun)

:: For Repairs over \$75.00, you will receive a written estimate detailing the nature of the repair, applicable taxes and shipping. You will have 30 days to approve the repair estimate. Repairs can be paid by check, money order, or credit card (American Express, Discover, MasterCard, or VISA). If you wish, you can expedite repairs over \$75.00 by setting a pre-authorized amount that can be billed to your credit card.

THE hady that I talked to, Said that this was a RE-CAII PROBLEM. SO THERE Should be NO Charges. Thanks (PS 8946)

Subject: Model 700 Serial #B6726507

RE: Case #1698

Dear Mr. Herlson,

This is in reference to our phone conversation earlier today. Per our agreement, Remington is willing to cover \$1500 of the damages to your 1996 Dodge pickup as a goodwill gesture. We will also replace your trigger assembly on your rifle at no charge. In order to proceed with this settlement, I will need you to sign the enclosed release form before a notary and return to me in the preaddressed envelope. Once I receive the release, we will issue the settlement check to you.

We appreciate your cooperation and are glad we could come to an amicable resolution. We hope that our actions will keep you as a loyal Remington customer.

Sincerely,

Laura Watson

ect: Model 700 Serial #B6726507 Case #1698

· Mr. Herlson,

were sorry to learn of the unfortunate incident that you experienced this weekend with your el 700. As I understand it, you had the firearm loaded in your vehicle and it fired, shooting le through your transmission. We are glad to hear that no one was injured and appreciate getting in contact with us so we can determine the cause of the incident.

we discussed, I have enclosed a prepaid UPS shipping label and orange "Factory Only" label ou to ship the firearm back to our factory for examination and repair. I have also included a of this letter to put inside the shipping box. The letter inside is important as sometimes the ide label gets damaged in transit and we want to be sure the firearm is logged in correctly. he factory repair form, please provide additional information about the incident, including late of the last occurrence, type of weather, type of ammunition being "ised, etc."

spologize for the inconvenience that this incident has caused and we hope that our actions keep you as a loyal Remington customer.

erely.

Ship your INSURED firearm by either UPS or Parcel Post to:
REMINGTON ARMS CO., INC
ATTN: Arms Service Divison  14 Hoefier Ave  Ilion, NY 13357
WARNING: DO NOT SEND LIVE OR SPENT SHELLS IN YOUR FIREARM OR IN THE SAME BOX WITH THE FIREARM. THIS IS A VIOLATION OF FEDERAL LAW: IF YOU FEEL YOU MUST SEND SPENT SHELLS PLEASE SEND THEM IN A SEPARATE PACKAGE AND INCLUDE NAME, ADDRESS (WITH ZIP CODE), TELEPHONE AND MODEL AND SERIAL NUMBER OF YOUR FIREARM.
:: Record the serial number of your firearm before sending it. :: Pack your firearm for safety and to prevent further damage in shipping and handling. Preferably, ship in a firearm box. (Note: Original boxes may not be returned.) :: Remove all accessories from your firearm to prevent loss or damage. :: Provide a return address on both the outside and inside the box. Shipments without a proper
return address will be refused.  :: Ship your INSURED firearm by either UPS or Parcel Post. Remington is not responsible for damage or loss during shipment, so you may elect to purchase insurance from your carrier.
Charge repairs will be processed using the following guidelines:
:: Repairs \$75.00 and under will be completed and returned to you C.O.D. (To avoid C.O.D. Charges, please include your credit card number and expiration date with your gun)
:: For Repairs over \$75.00, you will receive a written estimate detailing the nature of the repair, applicable taxes and shipping. You will have 30 days to approve the repair estimate. Repairs can be paid by check, money order, or credit card (American Express, Discover, MasterCard, or VISA). If you wish, you can expedite repairs over

\$75.00 by setting a pre-authorized amount that can be billed to your credit card.

Subject: Model 700 Serial #B6726507

RE: Case #1698

Dear Mr. Herlson,

We were sorry to learn of the unfortunate incident that you experienced this weekend with your Model 700. As I understand it, you had the firearm loaded in your vehicle and it fired, shooting a hole through your transmission. We are glad to hear that no one was injured and appreciate you getting in contact with us so we can determine the cause of the incident.

As we discussed, I have enclosed a prepaid UPS shipping label and orange "Factory Only" label for you to ship the firearm back to our factory for examination and repair. I have also included a copy of this letter to put inside the shipping box. The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly. On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

Sincerely,

Laura Watson

PD Hole in truck roof Other - Unexamined Cause:4079 Unknown gun goes off prematurely Concern: 1008 Fired on Bolt Closing

 $\mathbf{c}$ 

10/11/07-cust purchased gun on 12/12/07 through Wholesale sports. Gun went off prematurely as he closed the bolt and blew a hole in the roof of his truck. He is very shaken up but no injuries and does not want this gun. Claims no adjustments have been made to the rifle. Thinks it will cost approx \$350 for repairs to the truck.lw

#### Repair/Replacement Cost Repair/Replacement Date

10/11/07-explained that we would need to see the rifle at one of our Canadian RARCs. Emailed him information on these centers and he will send the rifle to them. I asked for them to contact me after evaluation. At this point he has not asked for anything other than stating he did not want the gun.lw 10/30/07-Shane at Reliable Gun in Vancouver didnt see anything unusual with tpa. no adjustments, clean, dry. Offered to replace tpa. ok with cust.lw

Dear Tim,

I received your call on Friday. The Remington Repair center called me to let me know they have received your firearm. They have not called me yet with their findings. I should have more information later this week for you.

Sincerely, Laura Watson

Dear Tim,

We are sorry to hear about the unfortunate incident you experienced with your Model 700 rifle. We are glad that no one was injured and hope to resolve this matter for you amicably.

Since you are in Canada, we recommend that you send the firearm to a Remington Authorized Repair Center for evaluation. Please put a note in the box explaining what has occurred and also notate to them to contact me once they evaluate the rifle.

The link below will direct you to our website with all of our Canadian RARC's: http://www.remington.com/support/repair\_services/canadian\_RARC.asp

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer. If you have any questions or concerns, please feel free to contact me. We are on EST so there is a bit of a time difference.

Sincerely, Laura Watson Consumer Affairs Administrator Remington Arms Company Phone 800-243-9700 ext 8789

2211 P1 6/88

December 8, 2006

Richard Howell 1121 Jackson Rd. Clearwater, FL 33755

Subject: Model 700 Serial #A6308040

RE: Case # 808

Dear Mr. Howell,

We were sorry to learn of the unfortunate incident that you experienced with your Model 700 rifle. We are certainly glad that no one was injured and that you are anxious to get back to enjoying the shooting sports.

As we discussed, I have enclosed a prepaid UPS shipping label for you to ship the firearm back to our factory for examination. After our examination, I will contact you with our findings and available options. I have also included a copy of this letter to put inside the shipping box. (The box will come under separate cover). The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the rifle is logged in correctly. On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

Sincerely,

Laura Watson

PD Shot hole in floor and grazed dog

Cause: 4006 Altered Adjustments or Components

Concern: 1007 Fired on Safe Release

Unknown

S C

12/18/06-Customer had gun loaded in the house, took the safety off and the gun went off. The round hit/grazed his dog in the leg and put a hole in the kitchen tile floor. He stated that he knows he shouldnt have had a loaded firearm in the house. He heard there was a recall on the gun. Has read alot of information online about Model 700s firing, read info online from Rich Miller. He would like for us to check the gun and cover the vet bill for his dog \$208.lw

### RELEASE

### KNOW ALL PERSONS BY THESE PRESENTS:

That I, <u>Scott Howland</u>, of <u>Windsor, NY</u> being of full age, in consideration of and upon receipt of <u>\$766 Dollars (US\$)</u>, do here-by release and forever discharge Remington Arms Company, Inc., E.I. du Pont de Nemours and Company and Sporting Goods Properties, Inc., (formerly named Remington Arms Company, Inc.) (together, the "Releasees"), their successors, assigns, employees, officers, agents and directors from all debts, claims, demands, damages, costs, expenses, actions and causes of action whatso-ever, known and unknown (including claims for loss of consortium), on account of, resulting, or which may result from property damage or injury received by me on or about <u>December</u> of <u>2006</u> which I have claimed was caused while using products manufactured and/or sold by one or more of the Releasees.

I further state (a) that receipt by <u>Scott Howland</u>, of the consideration described above constitutes a full and complete settlement of the claims described above, that this release is a compromise and is not to be construed in any way as an admission by the Releasees (i) of any responsibility for the accident, or for an alleged defect in said product, or (ii) that any such defect exists and (b) that I have carefully read and understand the contents of this release and sign the same as my own free act; and (c) that this release shall be construed and interpreted according to the laws of the UNITED STATES and the state of NEW YORK.

IN WITNESS WHEREOF, intending to be bound hereby, I have hereto set my hand and

Laura Watson Consumer Affairs Administrator Remington Arms Company

Subject: Defective Model 700 S/N #A6392929

RE: Case #852

Dear Ms. Watson

I have received your letter denying my reimbursement of damages. You are correct my request did change and it was all because of a \$21.00 charge to repair my defective firearm. You said you would repair my firearm at no charge. You lied, but then again you have been lying about the Model 700 ever sense you recalled your Model 600 for the same design flaw. I include below a little something I found on line.

### **Cost/Benefit Analysis:**

Remington knew about a problem in its bolt-action line when the fire control system was patented in 1950. The original patent application states that "we have found it to be essential that the safety means be so arranged that an inadvertent operation of the trigger while the safety is in the 'Safe' position will not condition the arm to fire upon release of the safety." In 1978, Remington settled a case brought by a man who was paralyzed when a Model 600 rifle suddenly discharged as the safety release was pushed into the "off" position. The company calculated that 50% of the 200,000 Model 600 rifles it had sold would fail. Facing the threat of future multi-million dollar awards and the prospect of having its insurance canceled, the company recalled the Model 600 rifles within a few days of the settlement.

The company's cost/benefit analysis was very different for the Model 700 rifle. Remington has sold at least 10 times as many Model 700 rifles as Model 600 rifles; however, in a company Product Safety Subcommittee meeting held in January 1979, Remington decided that only 1% of these rifles might be subject to the discharge problem. See Exhibit 5. Therefore, despite the fact that the Model 600 rifles and the Model 700 rifles evidenced the same discharge problem leading to the same kinds of injuries, the Subcommittee decided against recalling the Model 700 rifles because "the recall would have to gather 2,000,000 guns just to find 20,000 that are susceptible to this condition."

You put in your response that you hope that I will remain loyal to Remington. Well I was going to remain loyal and take the \$1000 gift certificate and buy my son a Remington Model 870 shotgun for his birthday next week. Your response to my request has changed my mind. I will be selling my Remington Model 870 & Model 700 guns and most likely buy a couple of Bennillies. Since it would be a loosing battle to sue your company for injuries to my dog, pain and suffering of me and my family I have no choice but to accept your pathetic offer. There is one small thing I will do for you. I will make sure that from this point forward I tell everyone I know along with everyone I meet and everyone I hunt with about Remington's disregard for its customer's safety. At age 44 I am guessing that I will tell my story countless times, those people will also tell my story countless times and the cost to Remington will be much more than the little amount I asked for.

Sincerely,

Swall Howley

Hello

I called your company and told them about what this fiream was doing and they explained to me to write this letter and return the gun. Me and my Dyr. old son were hunting at my Grandmothers and we was about to go to the woods, so we got every thing together and ofter doing so I preceded to load the que and when I chambered a Shell as I was socureing the bolt into its position the gun discharged scaring me & my son we did not hunt with this gun that day and also since this time the safety sometimes will not stick in the firing position and will not go to safety. So We have not used this gun since that day : I have several rifle's and I have never had one discharge that way. I don't know if

there is something wrong with the
bolt or firing mechanism or the
safety features. I just want to
make sure that it is corrected
and safe to use.

Thank you very much fa
your time & attention when
I called your company.

Sincerley,
Richard Huffines

# DETAR SIPS 30293

T Pupchased this gun 30 years Ago OFF OF A FREIND this gun has only been Stat About 50 times its like new. I went on A hunting Trip with it 20 YEARS Ago And Lost out hunting bECAUSE OF this defective disinterors sure.

INE Since tolked to SEVERAL PEOPLE Who Had the SAME SUN SAME PROBLEM, when you Put A shell in The fell nd Close the Chamber the fun FIRES OFF, And SOMETIMES WHEN you Put the SAFETY OFF IT FIRES OFF HIS IS
SO DANGEROUS, IT Should BE A (RECALL)
THANK GOD IM WERE SUFE AND ALLOHYS
POINT MY GIN IN A SMFE DIRECTIONS SOMEONE
COULD HAVE BEEN KILLED. I MAKE SEVERAL The Reminston suns. that ARE GREAT.

In Joins on A CARIBOY hunt in EARLY

SEptember And I need it back betone HEW. PLEASE FIX this PROBLEM And CHECK OVER THE WhoLE SUN. This CHRIBOU MUNT WAS PREPAID AND GOST ME 500000 dollars. PREPAID AND GOST ME 500000 dollars. PS 9016 thank you so much Laid Hing

Set SCREWS ALTERED-NOTRY.

Per our conversation with your customer service rep today 11/28 we are returning this Remington 700 Mountain rifle 7mm-08 serial number D6615704. Rifle was purchased from us and has had NO work done to the trigger or on any of the trigger/bolt mechanisms. According to the customer after loading the firearm and then placing the safety in the fire position the gun will fire. This happened twice once almost causing harm to another person. We are currently in the middle of our deer season here in NY and he is now left without a rifle for the season. Please repair this at once. Customer name is Edwin Worzel, 90 Benedict Road, Hancock, NY 13783 phone number is 607-637-4922 if you need to speak directly with him.

12/10/2007

11/13/07-consumer group spoke to him first and sent out a box and ARS.lw 12/5/07-Called cust w/ findings. He does not want this gun. I offered replacement trigger n/c. He wants a different model gun, does not trust this one. He went to dentist today. I spoke w/ dentist who stated he could not verify that the cracks were due to the incident, everyone has cracks in their teeth. If there was damage to the root he could potentially have a root canal down the road. Dentist found no root fractures or fractures on the bone to indicate injury. The \$1800 estimate was a verbal estimate given by another dentist w/ no eval. He could release records to me if Claude gave permission. I explained this to Claude, he now says this is not his regular dentist, he will get info from his reg dentist. His wife"s cousin is also a dentist who they first called. he has pictures of busted lip from incident.lw 12/10/07-offered new gun in exchange. Cust wanted Danny. Danny neg upgrade to CDL 84016.lw

### Remington

Do whom it may concern,

I, Claude F. Ms Albany, fr. went on a hunting trip. I weed my 7mm tiple. As I was sitting in the tree stand, I saw a Buck. I went to fire muy gum and it wouldn't fire. I put muy gum on safety, and the own went ob! The scape ion muy own hit me in my mouth hard. In shis busted muy lip and cracked I top teeth in my mouth. This hurts bad, my dentist States it will be the 1800 to repair my teeth.

If yel that because my life may now been threaten, I should receive a new 7mm rifle; for I would never be able to attempt to use this one again. I feel that in good faith I should also receive \$1,800 to get my 2 front teeth repaired. And for pain, suffering, and ruining my trip because of a safety problem with my gum, I deserve \$1,500. Sincerely club & many gum, I shoppened on

Fred.

Can you or Bruce be sure to get to this one today.

This guy has called in almost every day. It's an FSR, gun jumped up and cracked his teeth.

I'm a bit suspicious because he wants new gun, medical, and then some.

To Remington arms:

I am an old man so you can imagine my fear when this gun went off as I chambered A round

nearly killing my son, missed him about 2 feet.

I bought this gun in the early 1970's and it has allways been cased and cared for with the

utmost love and care, I have owned many remingtons in the span of my lifetime, and presently own

several shotguns, and A model 700 classic in 220 swift and have never at anytime had any problem

with any of them, so you can imagine my disapointment in this gun and remington arms.

it simply will not hold the hammer(for want of a better word) back,and when it does it will fire

when you release the safety-the gun is extremely dangerous and absolutely worthless.

thanks so much for your attention to this problem.

### **CBS News Targets Remington M700**

On February 7, 2001, CBS News aired a segment about a possible defect in Remington Model 700 rifles - alleging they can fire by disengaging the safety. This is something hunters and shooters should know about, but not necessarily because the guns any more dangerous than any other firearm - any gun, just like any motor vehicle, can kill.

The basis of the story - a so-called "accident" which resulted in the death of a nine-year-old boy due to his mother's mishandling of a Model 700 rifle - is a very sad tale, but it serves as a better example of gross negligence than of mechanical failure. I feel sympathy for the family involved, to a point. I sympathize with them for the death of their son, but not for the lack of common sense that caused it.

As anyone as jaded as I (with the liberal slant of most major news outlets) would expect, CBS's treatment of this story leaves much to be desired.

Nowhere did I read or hear mention of the keystone of all gun safety rules - always keep any gun pointed in a safe direction. No mention was made of the mother's gross mistake in pointing the rifle at her son, although she is quoted as saying, "I know basic gun safety, keep the gun pointed down..." She is given credit for being safe with a gun, yet she is responsible for the shooting death of her son, and she is not taken to task for her mistakes... a lack of logic that only a liberal anti-gunner could appreciate. In discussion of an internal Remington memo, CBS News picked out only the pieces that suited their needs and ignored the rest, including what Remington has done about the problem.

Details of the "accident" were omitted from today's program. I found more information on the CBS News Web site, and all quotes used in this article are taken from there. I tried some links to "full interviews" with the parents and others. Two of the three links worked, but the third did not. I personally don't believe that the transcripts on their website are "full" interviews - they read like well-edited interviews. I suspect they are full transcripts of the portions of the interviews that made it on the air.

The following is a brief outline of the incident, (quoted from the CBS News interview with the parents, the mother is speaking):

"I stood in front of the horse trailer with the gun pointed down and proceeded to open the bolt to unload it and the bolt wouldn't open. The kids were still on the horse at the back of the trailer. I went to open the bolt, it wouldn't open. I looked down and seen the safety was on. I pulled the safety off and it fired.

"The gun went off, my finger was nowhere near the trigger, I had an open hand. I ran around the back side of the trailer. (Our daughter) Shanda at that point I seen her she was with her horse and I yelled, 'Where's Gus? Where's Gus?' and he was on the other side of the horse trailer. The bullet had hit him through his hand and through his abdomen. He had just gotten off the horse."

(The boit on many Remington Model 700 rifles can't be opened when the safety is engaged.)

The boy bied profusely and subsequently died in the hospital that day, despite timely action and transport by his parents.

What we have here is a very sed story that didn't have to be. Let's presume that the mother did not touch the trigger, and that the rifle fired upon disengaging the safety. She said, "I stood in front of the horse trailer with the

gun pointed down..." (emphasis added). Then she "pulled the safety off and it fired." Somewhere along the line she ceased to point that gun at the ground - but CBS neglects to observe this fact.

This incident was not an accident. There is no such thing as an accident - everything is someone's fault, barring natural disasters. The shooting of that boy was a case of severe negligence by the boy's mother. If we concede that the safety on the gun acted as a trigger, we must also consider that she, who said she "know[s] basic gun safety," did notkeep the gun pointed at the ground and instead had it pointed at her child. Two major rules of gun safety were omitted from the story, and were broken in the incident:

- 1) Always keep a gun pointed in a safe direction.
- 2) Never depend on the safety.

Has personal accountability eroded to the point where we will ignore such facts? Mistakes are mistakes, and no one can change that.

One of the goals of the family involved in this tragedy is to increase public awareness of the alleged defect with Remington M700 rifles, and I think that's an honorable and worthwhile goal. Sportsmen need to know if there's a problem with their firearms, and this may indeed be a problem. But if handled properly, no firearm really needs a safety - as long as it's never pointed at something that you're not willing to destroy, it will never kill anyone or anything "accidentally."

Now on to the mechanical side of things. Are all Remington Model 700 rifles susceptible to this problem? The answer is disturbing.

Remington M700 - Friend or Foe?

February 7, 2001

Continued from Page One.

"...there are about 20,000 rifles out there which can be tricked. That's a lot of rifles, if you ask me."

This is page two of an article concerning recent allegations by CBS News that the Remington Model 700 rifle possesses an inherent flaw - that its safety can act as a trigger, and cause the gun to fire when it's disengaged.

According to attorney Rich Miller (who has handled many cases against Remington), all Remington bolt-action rifles - not just the Model 700 - built since 1950 contain a trigger group known as the Walker Fire Control System. Miller says "At one time, and maybe still today, the Remington 700 was the world's best selling bolt action rifle. They knew from day one they had a fatal flaw.

The downside is that the same mechanism can fail and that was recognized on the face of Walker's patent in 1950 that if you don't do this right the gun might fire on safety release."

According to an internal Remington memo, the actual sequence required to make a gun malfunction, or "trick," is to place the safety between the "safe" and "fire" positions, pull the trigger, and then place the safety in the "fire" position - which causes affected guns to fire. I can't make my model 700 fire in this manner, but it is allegedly possible.

CBS News had a link to the patent document in .pdf format, but it is unreadable. Even if Remington wasn't aware of the alleged flaw from the beginning, however, evidence exists which indicates that they have known about this problem since the mid-1970s at the latest. Here's what Miller has to say on this:

"They [Remington] started analyting the problem in '75 because they were getting some additional returns from the field. They realized the Walker fire control system with this trigger connector [sic] and on January 2nd, 1979, there was a meeting with the product safety subcommittee and a decision was made. The 700 at that time was the world's best selling bolt action rifle, may still be today. They knew they'd made 2 million of them at that time—they were doing about 100,000 a year — and they had studied that gun over the last 3 or 4 years and deciding what to do. And their estimates[sic] of the 700 problem was only 1% can go off.

"And so they decided on the 700 'we're not going to recal!". 2 million guns is too many guns if you have only 20,000 bad ones. And that was the decision — it was an economic decision.

"Now the key thing to understand here is this: every single 700 has the Walker fire control system with a trigger connector in it. If you own a 700, you've got it. And that is the problem — all of these guns have this design defect in it.

"And such things as age, wear, contaminates [sic] lubricant, things like that will enhance over time, so that the older guns will tend to have more problems than the newer ones."

Miller has an internal memo from Remington (dated January 2, 1979) which states their decision not to recall the guns. I have read the memo, which states that "Remington is confident because of the checks instituted in 1975.

PS 9048

V 130,400

that bolt action rifles made during and after 1975 will not trick."

According to this memo, during the period of time between June, 1978 and January, 1979, Remington raceived for service some five hundred post-1975 Model 700 rifles, and none could be tricked. During that same time frame, they dealt with two hundred pre-1975 Model 700s, two of which could be tricked - one due to a warped connector, and one due to insufficient clearance between sear and connector (one of the design changes made in 1975 was increased clearance between sear and connector).

Based on the above two out of two hundred, Remington guessed that 1% of their older (pre-1975) rifles were affected. Remington instituted a recall on Model 600 rifles, which were found to have a 50% occurrence of tricking before post-1975 Model 700 standards were used to correct this. While two hundred out of two million is not what I'd call a huge cross-section, if we accept Remington's estimates then in 1979 there were about 20,000 rifles out there which could be tricked. That's a lot of rifles, if you ask me.

There is merit in Remington's viewpoint in their 1979 memo, that "an attempt to recall all bolt action rifles would undercut the message we plan to communicate to the public concerning proper gun handling. It would indicate that the answer to accidental discharge can be found entirely within the gun, when in reality only proper gun handling can eliminate injuries resulting from such occurrences."

That sounds a bit like what I said earlier in this article, and it is worth considering. I think I will stand with Remington whether they recall or not, now that I have read this memo. I'd like to see them recall those older guns, but unless I learn something more about Remington's handling of this case, I believe their redesign of the 700 and recall of the 600 is sufficient What do you think?

# Remington Arms Company,

I am sending this Model 700 7MM RM (A6719387) at the request of Pete in the historical data group after our conversation on 10-5-07.

This rifle was purchased by my father-in-law in 1982 for his hunt of a lifetime in Montana. When he saw the largest whitetail he had ever seen the gun would not fire when he pulled the trigger. It was about 20 degrees. After ejecting shell and trying again and still no fire he raised barrel and the gun fired. The outfitter tried to shoot the gun with the same results of a delay of firing of almost a minute. I believe that the gun was returned to the factory at that time and the cause was believed to be excess packing grease on the firing pin. That was the last day of his last hunt. The gun has spent all these years in his gun cabinet until my wife got it this year.

I had waited all these years thinking this rifle needed to shoot at least one deer to fulfill its purpose. Deciding to upgrade the scope I pulled it out of the cabinet in preparation to take it to the gunsmith, I ran the bolt to check the trigger pull. During this it fired without the trigger being pulled as I moved the safety back and forth. Being baffled I returned it to the cabinet. Later I decided to check if there had been a recall and pulled it out to get the serial number and ran the bolt again, this time it fire as the bolt was locked down. After Pete's request for it to be sent in so it could be looked at, I ran the bolt again and it fired again as the bolt was put down.

I am sending UPS with return shipping papers included.

**Contact Information:** 

Les McLaughlin 2210 Walnut Grove Lane Richmond Texas 77469 H- 281-341-9635 W-713-590-7049

Thanks for any help you can provide. I have several of your rifles and never had a problem. But this one is not safe to use and either needs to find out what is wrong or go into the lake so no one will get hurt.

Ship your INSURED firearm by either UPS or Parcel Post to:	

**REMINGTON ARMS CO., INC** 

ATTN: Arms Service Divison 14 Hoefler Ave Ilion, NY 13357

WARNING: DO NOT SEND LIVE OR SPENT SHELLS IN YOUR FIREARM OR IN THE SAME BOX WITH THE FIREARM. THIS IS A VIOLATION OF FEDERAL LAW. IF YOU FEEL YOU MUST SEND SPENT SHELLS PLEASE SEND THEM IN A SEPARATE PACKAGE AND INCLUDE NAME, ADDRESS (WITH ZIP CODE), TELEPHONE AND MODEL AND SERIAL NUMBER OF YOUR FIREARM.

- :: Record the serial number of your firearm before sending it.
- :: Pack your firearm for safety and to prevent further damage in shipping and handling. Preferably, ship in a firearm box. (Note: Original boxes may not be returned.)
- :: Remove all accessories from your firearm to prevent loss or damage.
- :: Provide a return address on both the outside and inside the box. Shipments without a proper return address will be refused.
- :: Ship your INSURED firearm by either UPS or Parcel Post. Remington is not responsible for damage or loss during shipment, so you may elect to purchase insurance from your carrier.

Charge repairs will be processed using the following guidelines:

- :: Repairs \$75.00 and under will be completed and returned to you C.O.D. (To avoid C.O.D. Charges, please include your credit card number and expiration date with your gun)
- :: For Repairs over \$75.00, you will receive a written estimate detailing the nature of the repair, applicable taxes and shipping. You will have 30 days to approve the repair estimate. Repairs can be paid by check, money order, or credit card (American Express, Discover, MasterCard, or VISA). If you wish, you can expedite repairs over \$75.00 by setting a pre-authorized amount that can be billed to your credit card.

# 28 November, 2007. Problem Description

I would like to first say, Thanks to the Remington Model 700 Bdl I have shot my First Buck, 9 point 148 lbs. This hunting season. I have owned the gun for nearly 4 years now and have not shot it more than 6 times including the buck. I clean the gun barrel after every use.

Before this hunting season I had taken it out of its hard case and made sure it was in working order. Upon dry firing once, I proceeded to open the bolt then I closed it only to find out that when I closed it, the pin had fired. I opened it back up and closed it again. Everything seemed fine until I took the safety off, then it fired again. I proceeded to close the bolt several times and flicked the safety to fire and it would fire. I did this maybe 10 times and it continue to fire while flicking the safety off.

I decided to break the gun down completely and clean everything I could think of cleaning. I can't begin to think it was that dirty since I have fired it so little and it has always been kept clean, but I did. I reassembled the gun and Dry fired it 10 times according to the manual. When doing so it continued to fire when releasing the safety for the first couple of times, then would you know it, it started working Normally again.

I then started pushing the safety back and forth and realized when the bolt is engaged the safety seems a little hard to move back from the fire position, Is that Normal?

So I got back on the phone with Remington and they had told me to send it in anyway even if it is not tricking at the moment. I hope you're able to find the problem and maybe I'm the problem. Am I doing something I shouldn't? I can't imagine that this Rifle is just that sensitive I need to keep it in a climate controlled dust free environment.

I do thank you in advance for trouble shooting this mystery and I hope we have a positive solution. I know this is a little winded I just had no other way to describe the problem, I can only hope I properly did.

Sincerely a proud Remington Owner,

Timothy Mielnicki

RE: House damage from accidental discharge

Dear Michael,

Per our telephone conversation this morning, I have enclosed a release that needs to be signed, notarized, and returned to my attention. Once we have the executed release we will issue the paperwork needed to get a check in the amount of \$1800 processed and sent to your home address.

I have included an addressed FedEx envelope for you to return the executed release to my attention. If you have any questions please feel free to contact me directly.

Sincerely,

Fred Supry, Manager

### RELEASE

## KNOW ALL PERSONS BY THESE PRESENTS:

That I, <u>Michael Miller</u>, of <u>Mason, OH 45040</u> being of full age, in consideration of and upon receipt of <u>Eighteen Hundred and 00/100's Dollars (US\$1,800.00)</u>, do here-by release and forever discharge Remington Arms Company, Inc., E.I. du Pont de Nemours and Company and Sporting Goods Properties, Inc., (formerly named Remington Arms Company, Inc.) (together, the "Releasees"), their successors, assigns, employees, officers, agents and directors from all debts, claims, demands, damages, costs, expenses, actions and causes of action what-so-ever, known and unknown (including claims for loss of consortium), on account of, resulting, or which may result from property damage or injury received by me on or about <u>January</u> of <u>2007</u> which I have claimed was caused while using products manufactured and/or sold by one or more of the Releasees.

I further state (a) that receipt by <u>Michael Miller</u>, of the consideration described above constitutes a full and complete settlement of the claims described above, that this release is a compromise and is not to be construed in any way as an admission by the Releasees (i) of any responsibility for the accident, or for an alleged defect in said product, or (ii) that any such defect exists and (b) that I have carefully read and understand the contents of this release and sign the same as my own free act; and (c) that this release shall be construed and interpreted according to the laws of the UNITED STATES and the state of NEW YORK.

Subject: Model 700 Serial #6560642

RE: Case #1858

Dear Mr. Nikolas,

We were sorry to learn about the unfortunate incident your friend experienced with your Model 700 rifle. We are certainly glad that no one was injured, and we appreciate you contacting us so we can evaluate your firearm.

As we discussed, I have enclosed a prepaid UPS shipping label and orange "Factory Only" label for you to ship the firearm back to our factory for examination. I have also included a copy of this letter to put inside the shipping box. (The box will come under separate cover). The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly. On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

Sincerely,

Laura Watson

Re: Service

Dear Arms Services:

Enclosed please find my Remington Model 700, Serial #T6256820 chambered in a .30-06 cal. Recently, after shooting several rounds of ammunition on July 30, 2007, the firing pin was automatically engaging once I locked the bolt down. After the first incident, I then worked the bolt, unloaded of course, and discovered within a period of 14 times working the bolt open and then locking it closed for firing, the pin automatically engaged 6 times as if the trigger was pulled.

I was fortunate to have this happen at an unoccupied shooting range while the barrel was pointed down range. Please make every effort to have this problem corrected. I may be reached directly at (908) 797-2951.

Sincerely,

Dennis O'Brien 908-B Liberty Street

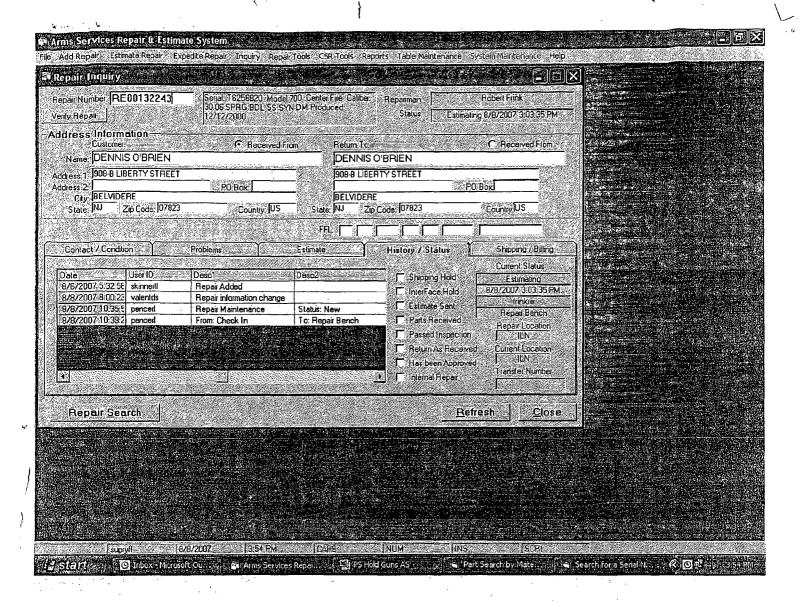

Belvidere, New Jersey 07823

July 22, 2007

#### Dear Remington Arms Company

This Remington 700 BDL was mine, my daughter showed interest in wanting to go hunting so I decided to give it to her for her birthday last year.

I wanted to shoot it and have it ready to go but found that every time I cycled the bolt it would fire! Even when I placed it on safety it was fine but when I took aim and took the rifle off of safety it fired without touching the trigger.

There is no way I can give a weapon to anyone especially my daughter that is unsafe. A dear friend who is President of a California Safari Club down in Sacramento told me to send it back to you for a bolt replacement because there was a recall on this action.

I thank you for your time and appreciate you time in this matter.

Thank you

David G. Pitts 95796 Cape Ferrelo Road **Brookings Oregon 97514**

November 26, 2007

DJ Rayner 367 Davis Jones Rd West Monroe, LA 71292

Subject: Model 700 Serial #G6293061

RE: Case #1781

Dear Mr. Rayner,

We were sorry to learn that your replacement rifle from RE69492 fired when you closed the bolt. As I understood, this was the first time you had taken this rifle out since it was replaced back in 2003.

As we discussed, I have enclosed a prepaid UPS shipping label and orange "Factory Only" label for you to ship the firearm back to our factory for examination. I have also included a copy of this letter to put inside the shipping box. The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly. On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

Sincerely,

Laura Watson

27 September 2007

Dear Remington Arms Service,

Please find enclosed my customer's 700, caliber 300 WIN MAG, serial number B6500397. The customer indicates that three times in the recent past the rifle has fired unexpectedly. His scenario states that the sequence of events is: (1) cartridge chambered and prepared to fire; (2) moved safety lever to the OFF position; (3) trigger pull would not release striker; (4) subsequent touching of the safety lever to ensure it being fully forward in the FIRE position caused the rifle to immediately fire. I have been unable to duplicate the symptoms. A discussion of the problem with technician Josh Cutlip resulted in him stressing that Arms Service definitely needed to see the rifle.

Please inspect and give a quote for repairs. Thanks much and best regards,

Don

2/6/07-correspondence from repair-When you chamber a round the gun fires. It just started doing this and does it often with bullets in the gun. sometimes it will fire when you put the safety on fire without touching the trigger. this gun is used by my daughter and is fired no more than 6-8 times a year.lw

# Remington

September 10, 2007

George Smith 2003 Dalloz Rd. Columbia, SC 29204

Subject: Model 700 Serial #242635

RE: Case #1527

Dear Mr. Smith,

We were sorry to hear that your rifle fired when you released the safety. We are certainly glad that no one was injured and that you are anxious to get back to enjoying the shooting sports.

As we discussed, I have enclosed a prepaid UPS shipping label for you to ship the firearm back to our factory for examination and repair. Normally we do charge \$20 to update an older firearm with a new trigger assembly; however as a gesture of goodwill, we will replace your trigger assembly at no charge. I have also included a copy of this letter to put inside the shipping box. (The box will come under separate cover). The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the rifle is logged in correctly. On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

Sincerely,

Laura Watson

Subject: Model 700 Serial #242635

RE: Case #1527

Dear Mr. Smith,

242635

Model: 700

RE00134231

We were sorry to hear that your rifle fired when you released the safety. We are certainly glad that no one was injured and that you are anxious to get back to enjoying the shooting sports.

As we discussed, I have enclosed a prepaid UPS shipping label for you to ship the firearm back to our factory for examination and repair. Normally we do charge \$20 to update an older firearm with a new trigger assembly; however as a gesture of goodwill, we will replace your trigger assembly at no charge. I have also included a copy of this letter to put inside the shipping box. (The box will come under separate cover). The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the rifle is logged in correctly. On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

Sincerely,

Laura Watson

Consumer Affairs Administrator Remington Arms Company

Phone: 800-243-9700 ext 8789

Fax: 336-548-7890

How often do you lubricate the trigger assembly? (Months or Number of rounds)

In wat weather or when Clemed I will have you reviewed the cleaning and maintenance recommendations on our web site or in our owners manual?

When was the last time that your firearm was serviced by a Remington authorized repairman/gunsmith?

What were the services performed?

Ship your INSURED firearm by either UPS or Parcel Post to:

### **REMINGTON ARMS CO., INC**

ATTN: Arms Service Divison 14 Hoefler Ave Ilion, NY 13357

**WARNING:** DO NOT SEND LIVE OR SPENT SHELLS IN YOUR FIREARM OR IN THE SAME BOX WITH THE FIREARM. **THIS IS A VIOLATION OF FEDERAL LAW.** IF YOU FEEL YOU MUST SEND SPENT SHELLS PLEASE SEND THEM IN A SEPARATE PACKAGE AND INCLUDE NAME, ADDRESS (WITH ZIP CODE), TELEPHONE AND MODEL AND SERIAL NUMBER OF YOUR FIREARM.

- :: Record the serial number of your firearm before sending it.
- :: Pack your firearm for safety and to prevent further damage in shipping and handling. Preferably, ship in a firearm box. (Note: Original boxes may not be returned.)
- :: Remove all accessories from your firearm to prevent loss or damage.
- :: Provide a return address on both the outside and inside the box. Shipments without a proper return address will be refused.
- :: Ship your INSURED firearm by either UPS or Parcel Post. Remington is not responsible for damage or loss during shipment, so you may elect to purchase insurance from your carrier.

Charge repairs will be processed using the following guidelines:

G6470824

RE00138016

ed to you C.O.D. (To avoid C.O.D. Charges, please your gun)

if mate detailing the nature of the repair, applicable taxes it estimate. Repairs can be paid by check, money order, or VISA). If you wish, you can expedite repairs over filled to your credit card.

Laura,

Please send a box and ARS label to retrieve a Model 700 ML to:

Jeff Snipes 114 Old Waterworks Road Lancaster, SC 29720

His phone number is 803-313-2327. He claims that the ML fired with the safety on when he release the safety. He also said he damaged his truck. I told him we would send the box, the label, and a letter. He did not have the rifle with him so I wasn't able to get the serial number. Thank you.

Subject: Model 700ML

RE: Case #1808

Dear Mr. Snipes,

We were sorry to learn about the unfortunate incident you experienced with your Model 700ML. We are certainly glad that no one was injured, and that you are anxious to get back to enjoying the shooting sports.

Per your discussion with Fred Supry, I have enclosed a prepaid UPS shipping label and orange "Factory Only" label for you to ship the firearm back to our factory for examination. I have also included a copy of this letter to put inside the shipping box. (The box will come under separate cover). The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly. On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

Sincerely,

Laura Watson

TO: Remington Arms Service Dept.

Dear Sir:

The problem that I am having with my Rem 700 ML (serial #235721) is that when the safety is moved to the firing position, the firing pin releases. (It won't stay cocked.)

I took the gun to a gunsmith who was unable to correct the problem. He called your service department and was told to send the gun to you.

I believe the gun was purchased in 2002. It has been fired approximately 200 times.

Please make the necessary repairs ASAP. I am leaving on September 5th for an elk hunting trip in Colorado.

Sincerely,

Ronald J. Sonnentag

#### Help with BDL 30.06

1670

#### Discussion Thread

Customer (David Southwick)

10/19/2007 02:32 PM

In the summer of 1974 I purchased a new Remington BDL 30.06 rifle. That fall, after a day of hunting, I approached my dad's truck and started to unload the gun. When I switched the safety off, the gun fired into the pickup. I assumed that I must have bumped the trigger, causing the gun to go off. Luckily, no one was near and the only damage was to the pickup. I have never carried the gun with a bullet in the chamber since. Recently, I loaned the gun to a relative. When he returned it, he asked me if I was aware that the gun had a defect. He explained that sometimes, when the safety is switched off, the firing mechanism activates. I have experimented with the rifle and found that if the trigger is touched, while the safety is on, that switching the safety off will sometimes cause the firing mechanism to fire. I am extremely thankful that no one was ever injured by the gun but now am wondering if Remington would be willing to help me get the gun repaired. Thanks for your consideration. Dave.

RE: Case #1672

Dear Mr. Southwick,

We were sorry to learn about the problem you experienced with your Model 700 rifle. We appreciate you contacting us so we can evaluate your firearm and help resolve this matter for you. As I understand it, the rifle fired on two different occasions without you pulling the trigger.

As we discussed, I have enclosed a prepaid UPS shipping label and orange "Factory Only" label for you to ship the firearm back to our factory for examination. We can offer to replace your trigger assembly under our Safety Modification program for a charge of \$20 plus tax. We can send you a quote once we have the opportunity to evaluate your firearm.

I have also included a copy of this letter to put inside the shipping box. On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

Sincerely,

Laura Watson

October 24, 2007

22" 10/7? EX.5#

David Southwick 4840 N Forest Way Idaho Falls, ID 83401

Subject: Model 700 Serial #6675077

RE: Case #1672

Dear Mr. Southwick,

Model: 700

RF00136477

We were sorry to learn about the problem you experienced with your Model 700 rifle. We appreciate you contacting us so we can evaluate your firearm and help resolve this matter for you. As I understand it, the rifle fired on two different occasions without you pulling the trigger.

As we discussed, I have enclosed a prepaid UPS shipping label and orange "Factory Only" label for you to ship the firearm back to our factory for examination. We can offer to replace your trigger assembly under our Safety Modification program for a charge of \$20 plus tax. We can send you a quote once we have the opportunity to evaluate your firearm.

I have also included a copy of this letter to put inside the shipping box. On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

Sincerely,

Laura Watson

Consumer Affairs Administrator

Have you reviewed the cleaning and maintenance recommendations on our web site or in our owners manual?  YES  NO	
Comments:	
When was the last time that your firearm was serviced by a Remington authorized repairman/gunsmith? $-He$ S	n4 been
What were the services performed?	

Ship your INSURED firearm by either UPS or Parcel Post to:

#### **REMINGTON ARMS CO., INC**

ATTN: Arms Service Divison

14 Hoefler Ave

Ilion, NY 13357

**WARNING:** DO NOT SEND LIVE OR SPENT SHELLS IN YOUR FIREARM OR IN THE SAME BOX WITH THE FIREARM. THIS IS A VIOLATION OF FEDERAL LAW: IF YOU FEEL YOU MUST SEND SPENT SHELLS PLEASE SEND THEM IN A SEPARATE PACKAGE AND INCLUDE NAME, ADDRESS (WITH ZIP CODE), TELEPHONE AND MODEL AND SERIAL NUMBER OF YOUR FIREARM.

- $\ensuremath{\mathbf{::}}$  Record the serial number of your firearm before sending it.  $\ensuremath{\cdot^{-}}$
- :: Pack your firearm for safety and to prevent further damage in shipping and handling. Preferably, ship in a firearm box. (Note: Original boxes may not be returned.)
- :: Remove all accessories from your firearm to prevent loss or damage.
- :: Provide a return address on both the outside and inside the box. Shipments without a proper return address will be refused.
- :: Ship your INSURED firearm by either UPS or Parcel Post. Remington is not responsible for damage or loss during shipment, so you may elect to purchase insurance from your carrier.

Charge repairs will be processed using the following guidelines:

- :: Repairs \$75.00 and under will be completed and returned to you C.O.D. (To avoid C.O.D. Charges, please include your credit card number and expiration date with your gun)
- :: For Repairs over \$75.00, you will receive a written estimate detailing the nature of the repair, applicable taxes and shipping. You will have 30 days to approve the repair estimate. Repairs can be paid by check, money order, or credit card (American Express, Discover, MasterCard, or VISA). If you wish, you can expedite repairs over \$75.00 by setting a pre-authorized amount that can be billed to your credit card.

Subject: Model 700ML Serial #ML205461

RE: Case #1725

Dear Mr. Swore,

We were sorry to learn of the accidental discharge that you experienced with your Model 700ML. We appreciate you getting in touch with us so we can determine the cause of the incident.

As we discussed, I have enclosed a prepaid UPS shipping label and orange "Factory Only" label for you to ship the firearm back to our factory for examination. I have also included a copy of this letter to put inside the shipping box. (The box will come under separate cover). The letter inside is important as sometimes the outside label gets damaged in transit and we want to be sure the firearm is logged in correctly. On the factory repair form, please provide additional information about the incident, including the date of the last occurrence, type of weather, type of ammunition being used, etc.

We apologize for the inconvenience that this incident has caused and we hope that our actions will keep you as a loyal Remington customer.

Sincerely,

Laura Watson

WARNING: DO NOT SEND LIVE OR SPENT SHELLS IN YOUR FIREARM OR IN THE SAME BOX WITH THE FIREARM. THIS IS A VIOLATION OF FEDERAL LAW. IF YOU FEEL YOU MUST SEND SPENT SHELLS PLEASE SEND THEM IN A SEPARATE PACKAGE AND INCLUDE NAME, ADDRESS (WITH ZIP CODE), TELEPHONE AND MODEL AND SERIAL NUMBER OF YOUR FIREARM.

- :: Record the serial number of your firearm before sending it.
- Pack your firearm for safety and to prevent further damage in shipping and handling. Preferably, ship in a firearm box. (Note: Original boxes may not be returned.)
- :: Remove all accessories from your firearm to prevent loss or damage.
- :: Provide a return address on both the outside and inside the box. Shipments without a proper return address will be refused.
- :: Ship your INSURED firearm by either UPS or Parcel Post. Remington is not responsible for damage or loss during shipment, so you may elect to purchase insurance from your carrier.

Charge repairs will be processed using the following guidelines:

- :: Repairs \$75.00 and under will be completed and returned to you C.O.D. (To avoid C.O.D. Charges, please include your credit card number and expiration date with your gun)
- :: For Repairs over \$75.00, you will receive a written estimate detailing the nature of the repair, applicable taxes and shipping. You will have 30 days to approve the repair estimate. Repairs can be paid by check, money order, or credit card (American Express, Discover, MasterCard, or VISA). If you wish, you can expedite repairs over \$75.00 by setting a pre-authorized amount that can be billed to your credit card.

Customer (Jerry Swore)

10/28/2007 07:12 PM

I sent this e-mail on 10/19.2007 and as of today 10/28/2007, I have not heard anything from anybody. I would really like a reply. Thanks again Jerry

Customer (Jerry Swore)

10/19/2007 02:23 PM

My rifle shoots when I take the safety off all by itself. Almost shot myself twice. Who do I talk to about getting this fixed. Thanks

Comments:

When was the last time that your firearm was serviced by a Remington authorized repairman/gunsmith?  $\mathcal{N}_{\ell}\mathcal{N}_{\ell}$ 

What were the services performed?

Ship your INSURED firearm by either UPS or Parcel Post to:

#### REMINGTON ARMS CO., INC

ATTN: Arms Service Divison 14 Hoefler Ave Ilion, NY 13357

WARNING: DO NOT SEND LIVE OR SPENT SHELLS IN YOUR FIREARM OR IN THE SAME BOX WITH THE FIREARM. THIS IS A VIOLATION OF FEDERAL LAW. IF YOU FEEL YOU MUST SEND SPENT SHELLS PLEASE SEND THEM IN A SEPARATE PACKAGE AND INCLUDE NAME, ADDRESS (WITH ZIP CODE), TELEPHONE AND MODEL AND SERIAL NUMBER OF YOUR FIREARM.

- :: Record the serial number of your firearm before sending it.
- :: Pack your firearm for safety and to prevent further damage in shipping and handling. Preferably, ship in a firearm box. (Note: Original boxes may not be returned.)
- :: Remove all accessories from your firearm to prevent loss or damage.
- Royide a return addression both the outside and inside the box. Shipments without a proper
- Ship your INSURED firearm to either UPS or Parcel Post. Remington is not responsible for damage or loss guring shipment, so you may elect to purchase insurance from your carrier.
- Charge repairs will be processed using the following guidelines:
- :: Repairs \$75.00 and under will be completed and returned to you C.O.D. (To avoid C.O.D. Charges, please include your credit card number and expiration date with your gun)
- :: For Repairs over \$75.00, you will receive a written estimate detailing the nature of the repair, applicable taxes and shipping. You will have 30 days to approve the repair estimate. Repairs can be paid by check, money order, or credit card (American Express, Discover, MasterCard, or VISA). If you wish, you can expedite repairs over billed to your credit card.

June 22, 2007

To Whom It May Concern:

I have had a problem with the included Remington Model 700 Bolt Action, .270 Caliber, and Serial Number C6298768. I have recently had a problem with the rifle not firing when the safety is in the fire position and the trigger is pulled completely back. When I release the trigger and push the safety into the safe position then pull the safety back to the fire position, the rifle will fire without me pulling the trigger. As you know, this is extremely dangerous and I had to change my pants many times! Also, and this may be the source of the problem, the trigger on the rifle is very hard to pull back. I do not know the exact poundage, but I have never had a rifle with such a heavy trigger pull. Please set the trigger pull at the factory spec minimum. Thank you for your time and work.

Thank you,

Michael Turner

Re: Remington .270 cal Model 700 Serial B6739903

36739 Model:

Dear Sirs.

In January 2007 the gun was chambered live with the safety on. Upon moving the safety to the off position the gun fired without being triggered.

Your assistance in diagnosing and correcting this problem is greatly appreciated.

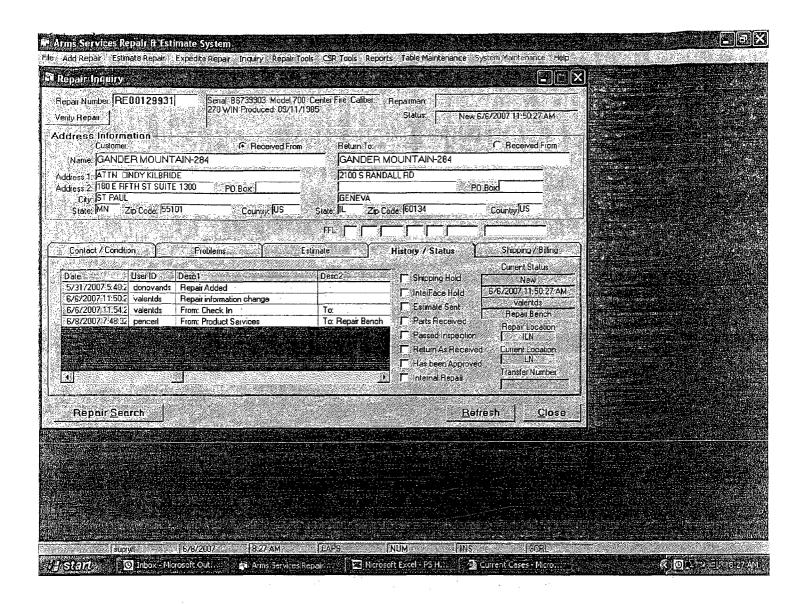

I can be contacted with any questions or concerns at trophybucs4@aol.com or at the address and telephone listed below.

Sincerely.

Michael Maxstadt 48W551 Perry Road Maple Park, IL 60151

(630)660-5639

Have you reviewed the cleaning and maintenance recommendations on our web site or in our owners manual?
When was the last time that your firesim was serviced by a Remington authorized repairman/gunsmith?)
What were the services performed?)
NOTE: In order to better service our customers some firearms/parts are sent to a certified Remington Premier Authorized Repair Center.
Ship your INSURED firearm by either UPS or Parcel Post to:
Remington Arms Co., Inc. Attn: Arms Service Division 14 Hoefler Avenue Ilion, NY 13357
① WARNING: DO NOT SEND LIVE OR SPENT SHELLS IN YOUR FIREARM OR IN THE SAME BOX WITH THE FIREARM. THIS IS A VIOLATION OF FEDERAL LAW. IF YOU FEEL YOU MUST SEND SPENT SHELLS PLEASE SEND THEM IN A SEPARATE PACKAGE AND INCLUDE NAME, ADDRESS (WITH ZIP CODE), TELEPHONE AND MODEL AND SERIAL NUMBER OF YOUR FIREARM.
:: Record the serial number of your firearm before sending it. :: Pack your firearm for safety and to prevent further damage in shipping and handling. Preferably, ship in a firearm box. (Note: Original boxes may not be returned.) :: Remove all accessories from your firearm to prevent loss or damage. :: Provide a return address on both the outside and inside the box. Shipments without a proper return address will be refused. :: Ship your INSURED firearm by either UPS or Parcel Post, Remington is not responsible for damage or loss during shipment, so you may elect to purchase insurance from your partier.
Charge repairs will be processed using the following guidelines:
:: Repairs \$75.00 and under will be completed and returned to you C.O.D. (To avoid C.O.D. Charges, please include your credit card number and expiration date with your gun)
:: For Repairs over \$75.00, you will receive a written estimate detailing the nature of the repair, applicable taxes and shipping. You will have 30 days to approve the repair estimate. Repairs can be paid by check, money order, or credit card (American Express, Discover, MasterCard, or VISA). If you wish, you can expedite repairs over \$75.00 by setting a pre-authorized amount that can be billed to your credit card. We process checks electronically through Check21.

Ship your INSURED firearm by either UPS or Parcel Post to:

#### **REMINGTON ARMS CO., INC**

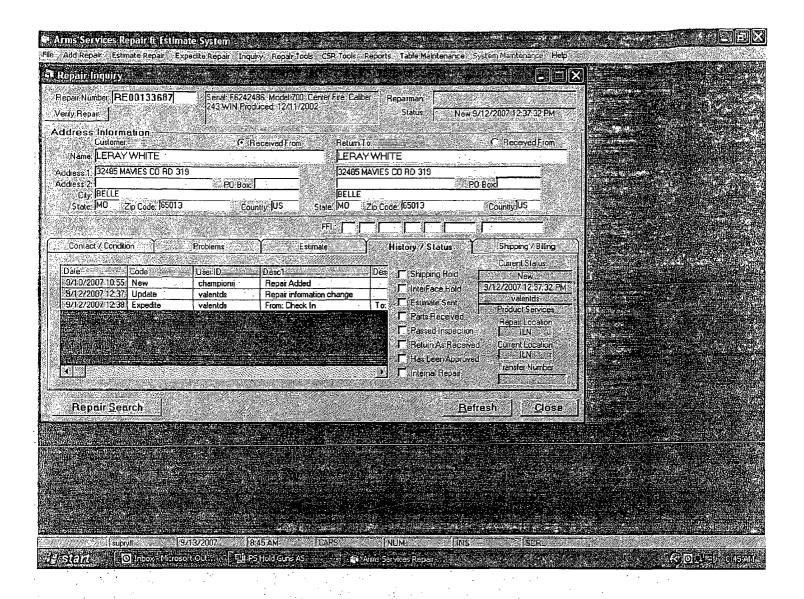

ATTN: Arms Service Divison 14 Hoefler Ave Ilion, NY 13357

**WARNING:** DO NOT SEND LIVE OR SPENT SHELLS IN YOUR FIREARM OR IN THE SAME BOX WITH THE FIREARM. THIS IS A VIOLATION OF FEDERAL LAW. IF YOU FEEL YOU MUST SEND SPENT SHELLS PLEASE SEND THEM IN A SEPARATE PACKAGE AND INCLUDE NAME, ADDRESS (WITH ZIP CODE), TELEPHONE AND MODEL AND SERIAL NUMBER OF YOUR FIREARM.

- :: Record the serial number of your firearm before sending it.
- :: Pack your firearm for safety and to prevent further damage in shipping and handling. Preferably, ship in a firearm box. (Note: Original boxes may not be returned.)
- :: Remove all accessories from your firearm to prevent loss or damage.
- :: Provide a return address on both the outside and inside the box. Shipments without a proper return address will be refused.
- :: Ship your INSURED firearm by either UPS or Parcel Post. Remington is not responsible for damage or loss during shipment, so you may elect to purchase insurance from your carrier.

Charge repairs will be processed using the following guidelines:

- :: Repairs \$75.00 and under will be completed and returned to you C.O.D. (To avoid C.O.D. Charges, please include your credit card number and expiration date with your gun)
- :: For Repairs over \$75.00, you will receive a written estimate detailing the nature of the repair, applicable taxes and shipping. You will have 30 days to approve the repair estimate. Repairs can be paid by check, money order, or credit card (American Express, Discover, MasterCard, or VISA). If you wish, you can expedite repairs over \$75.00 by setting a pre-authorized amount that can be billed to your credit card.

To Whom It May Concern,

I am sending this rifle to you because of a malfunction that occurred during the start of the 2006 deer season. I bought this rifle from J and S Sporting goods in Wilkes Barre, Pennsylvania on August 14, 2003. Here is the series of events that took place with my rifle.

I sat down to take a couple shots with my rifle at the shooting bench to sight in. As I proceeded to take the safety off the gun went off. I figured I had bumped the trigger but it turned out that when I went to take my second shot I took the safety off and the gun went off again. I knew what had happened at that point. The next time I did the same thing with no bullet in the gun at all and flicked the safety off. When I did that you could see the firing pin at the end of the bolt go in as soon as I took the safety off. This occurred two more times. Then it just stopped doing it without a bullet in the gun. So I went to take a live shot and everything was fine. I took five shots after that and it never happened. The gun has not did it since. But, this is obviously a safety issue. So if you can please look at my gun and see maybe what caused this to occur. If you need to get in touch with me my phone number is 570-592-5692. My email address is bpw127 @psu.edu. My rifle is a Model 700 ADL synthetic.

Also I have one more question. Is it possible on my rifle to have a detachable magazine box or a floor plate put on my rifle instead of the one I have now which does not have a floor plate. If so how much would it cost to have it done and who would be doing it.

Here is my mailing address: Brian Williamson 134 McCarragher St Wilkes Barre, PA 18702

Contract rectioner to let him Know that we cannot fit floor plate o'r delachable magazine to an ADL Receiver.

Asseld me Juplinate would be TRO 4 THE PLANTS PLANTED, Ly have Try, where over, with At 1/2 cost bord will bearing.

( ) words

Brian Williamson

Thanks,

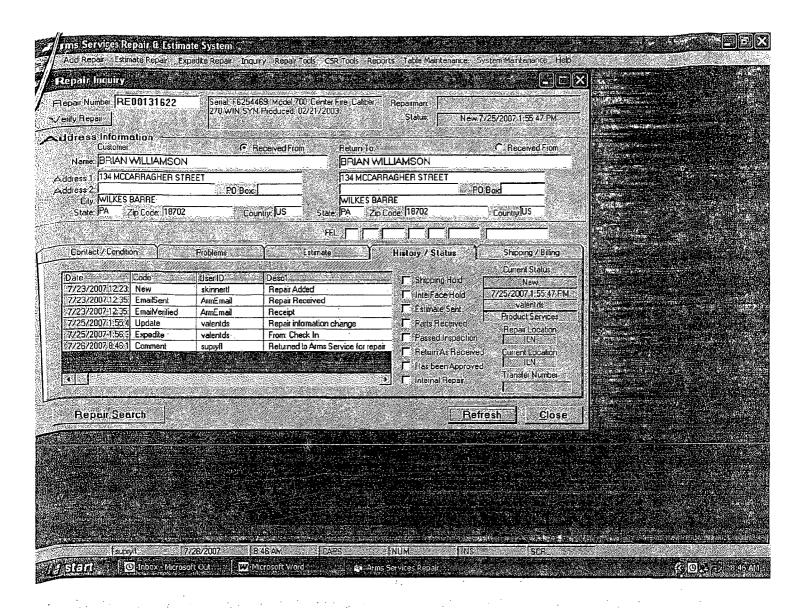

6254469 Model:

RE: 700LTR; S/N G6400371

The assigned operator of the aforementioned rifle reports that he experienced a discharge of the weapon when taking the safety off. Additional attempts to recreate the problem were not successful, but please check for problems.

The operator also advised that the trigger pull feels "rough" from time to time. Both front sling studs on this rifle have been broken several times. The only repair that we have made to this rifle is the insertion of a thread sleeve in the bedding block after drilling to remove the broken sling stud.

Please advise if you need further information.

Thank You.
