

August 21, 2001

Serial Number: **ML017451**

Model: **700ML**

RE00031789

Dear Remington Arms:

My 700 MLS Muzzleloader will fire when passing the safety to the firing position. As soon as you close the bolt assembly and flip the safety forward to the firing position the gun will discharge.

I would like this gun fixed as soon as possible; you can call me at 765.874.2978. I would also like this gun test fired before its return to me. I can send payment for repairs after you evaluate the problem.

Our address is:
Tim B. Abrams
2088 East Countyline Road 1100 South
Lynn, IN 47355

Thank you in advance,

Tim Abrams
