Repair Center

Remington Arms Co.

Ilion, NY 13357

Dear Sirs:

Enclosed are Remington Model 700-243 SN 22389. I was told that the rifle went off when I released the safety. This year it didn't again. I hope that this is a known problem with this rifle.

Therefore, I would like to have you make whatever modifications are necessary to repair it. Please do so and return it as soon as possible. Thank you in advance for your co-operation.

Sincerely,

Henry D. Ahern, Jr.
