METAL			C2			

MAIN FAULT My 1978 upon receipt rifle in operation. The trigger would not
extract, bolt stop would raise up. San Safety team working sluggish.
Trigger weight of pull was too heavy. Measured at 13 1/4 lbs.

PARTS ACTION AND TRIGGER assembly covered with dirt, dust, and rust. Rifle has
been poorly maintained.
#26345
Replace the complete trigger assembly
& clean the action at 1/2 the normal
weight, as a gesture of good will.
