

DEAR Sins

I haven't been Able to use this rifle from day 1. It could never sight in with or without scope 3x9x40 Leupold I use Hodgson Pyradex ~~Pellets~~ 2 60 gr Fuse Remington-Union bullets with Sabots 303 gr. I also used Hornady 265 gr. Sabots with 2 60 gr Pellets with same bad results.

At 40 yds. I can't hit wood on a 4x8 Plywood.

At 25 yds it might hit low to right - 16 The bullet hooks like it goes thru target sideways.

This Past week it fired Percussion Cap a couple times when I released safety (no charge in barrel) I left safety on Loaded Gun aimed at target released safety and gun fired when safety was released

Please Help

Thanks

(OVER)
