Dear Mr. Suppy

During my 2001 white tail deer hunt
I experianced a mishap where by
my Model 700 REMINGTON rifle fired
while being unloaded causing a good
size hole on the passinger side door and
the gless window to break to pieces. I'm
enclosing a copy of the paid bill that
the bullet cause cost.

I much appreciate what you propose to
do for me. Thanks again.

Sincerely
John Alvarez
