Find enclosed a 700 Varmint
243 Win. Serial # E6699032, I sold
it new. My customer brought it back
saying it sometimes fires when the
safety is put on fire. He says no
one has done trigger work on it but
he might be mistaken. Please repair
and send to above address.

Did find trigger pin nearly inside the trigger pin hole, rifle
May have been exposed to excessive moisture.
