Dear Sirs,

Enclosed you will find a Remington 700 rifle, serial number 06708420. Our customer has returned this rifle to us after having some difficulty. Apparently the rifle occasionally discharges when the bolt is closed on a chambered round. Our customer says that the rifle has done this on several occasions, with the safety in both the on or off position. We are understandably concerned about this condition, and would appreciate any assistance you can render.

Thank you for your support.

Sincerely,

Mitchell E. Ilson
