Subject: Return of rifle S6220069

Dear Mr. Amos:

Per your request, I have taken your firearm to our Arms Service Division to be returned to you "as received." Our offer to repair the rifle as outlined in my letter of March 26, 2002 will remain open. Once you've reviewed the rifle, and if you decide that you would like to take advantage of our no charge repair offer, please return the rifle to my attention.

As I mentioned on the phone this morning, I took photographs to document my findings. I sincerely hope that your investigation determines when the trigger was adjusted, and that you take advantage of our offer.
