Re: Remington 700 6MM
Serial #6436170

Gentlemen:

On November 9, 2003 I was target shooting with the above referenced firearm when on the third shot there was an abnormal explosion. This gun has never misfired like this before. I am sending this rifle for your examination, evaluation and repairs. Enclosed for your information is the unfired shell from the same box of shells, one spent shell and the misfired shell. Your assistance in this matter is greatly appreciated.

Please advise me of the charges and I will promptly pay them.

Sincerely,

Bobby Andrews
