

Messrs;

2-13-2001

I have in my possession one of your Remington 700 BDL
rifles s/n A6442969, caliber 270 win. I do not know the
history of this gun, I purchased it at a ST. Louis Mo.

* gun show in used condition.

→ This gun has fired accidentally two times as the safety was
released in order to unload the gun. This scares me very
much and I consider the gun to be unsafe; therefore
unusable.

Please have your technicians examine this rifle and advise
me of condition.

Respectfully

Vergil Anglin

Action & trigger assembly covered with a heavy sticky substance.
Clean safety cam & bolt stop release working sluggish.
Replace trigger assembly & clean action at 1/2 MSP JP Adams
