

Remington
Model 700
7 mm MAG ADL
6590847

Dear Remington,

The problem with this
gun is the Hammer will
Release when I take it
OFF OF SAFETY. It first
Happened when I went
to UNLOAD IT AFTER Hunting.
This is AN OLDER MODEL SO
YOU HAVE TO HAVE THE SAFTY
OFF TO RELEASE THE Bolt.
WHEN I SWICHD it to
Fire it went OFF. It's
Also happened ~~several~~ A
Couple more times. This is
Very Discouraging on my ~~Part~~
Thoughts on Remington FireARMS.

I'm not expecting to have to
pay any money to correct
this problem. If there
is going to be any charges
please call before any are
incurred.

Thank you
Travis Burnett.
