

Jo ROGER POTTER,

My husband bought me a 7mm Rem. Mag for Christmas 1991. The gun was never used until October to be sighted in for Elk season.

While my sister and I were out sighting it in, the safety was on, the trigger was not touched, and the gun went off. Luckily no one was hurt.

The button to release the bolt is also very tough. The safety switch is hard to switch to fire and very noisy.

After paying \$400⁰⁰ for this gun and not being able to use it safely, I feel that Remington should fix it by putting the old style safety

trigger back on at no charge.
Roger. I really appreciate
all the help you have given
me and the cooperation that
Remington has given me.

If you have any questions
you can reach me at 276-9631
after work hours and 278-0200
during work hours (8:30-5:30)
our time.

Sincerely-

Julie Blackburn
