22 September 1992

Dear Sirs,

I am writing in regards to my Remington 7 millimeter magnum. When either unloading the rifle, i.e. removing a shell from the chamber, or placing a shell in the chamber and closing the bolt, the rifle has spontaneously discharged. I am not sure where the problem is and would appreciate your help.

Thank you very much.

Sincerely,

Kenneth J. Wool, M.D., F.A.C.C.
