Gentlemen:

This letter accompanies my Remington Model 700 ADL, serial #A6728142. I am returning to rifle to you because of concern about premature discharge, particularly when the safety is released.

Please find enclosed, a copy of my original letter dated November 14, 2000, which expresses concern about this issue. I have also enclosed a copy of your response, directing me to send the rifle to you.

When you return the rifle to me after it is serviced, I would appreciate if you could detail what services were performed. Please let me know if you have further questions, and Thank You for your attention to this concern.

Sincerely,

David Canty
