Sirs,

A customer of ours recently brought in  
emington 700 ADL 25-06 (enclosed.) with  
safety lever broken. The customer  
us that when the safety lever was moved  
the "off safe" position the striker would fall.  
Also on occasion when the bolt was closed  
striker would follow the bolt down.  
request that you inspect the rifle and  
advise us on the cost of any repairs  
required before proceeding with the work.  
Also find enclosed a current signed copy of  
our Federal Firearms License if it should be  
required.

Sincerely,

C & M SPORTING GOODS
