Remington,

This gun was sold on 10-20-94

The customer says that it has twice
discharged while the safety was on.
Once up into the air and once
through the floor of his pickup.

Please advise us on the prob-
lem and what needs to be done.

Thank you,

Ronnie

P.S.

I realize this gun
was shipped in March
1991. He purchased the
inventory in this store
in June of 1994. The
gun was still brand
new when sold on
