Repair Dept:

Enclosed is my Remington Model 700 30-06 Rifle.

The safety is stuck in the safe position. There was also one time that the rifle discharged, while moving the safety into the fire position, without having a hand on the trigger. Please let me know as to the status of the repairs. I will be out of town July 13-28. You can reach me through (908) 806-8625 during those dates.

Thank you for your attention,

Wayne Drown
