Attention: Mr. Fred Martin

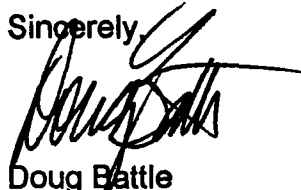

Dear Sir:

On the evening of November 7, 1993, I returned to my camp trailer from my deer stand and explained to my two friends about the safety on my gun jamming. While I was showing them what it had done, my gun went off sending a bullet through my travel trailer and into my friend's 1993 Ford Explorer. We all were very fortunate that something more serious did not happen. I have been told that Remington has experienced some problems with the safety on the model 700 rifles.

I talked to Mr. Ed Joy on November 9th and he gave me instructions to send my gun back to Remington and they would take care of my gun and the damages involved. I have also talked to Mr. Dennis Sanita about replacing my gun, and he said that it should not be a problem. I don't think that I could ever feel safe with my rifle again. Mr. Sanita also said to furnish estimates of my property damage, which I am enclosing.

I appreciate your consideration in this matter, and hope that there will be no problems in getting this resolved as soon as possible.

Sincerely,

Doug Battle
