

8/20/94

Dennis:

I appreciated you taking the time to explain to me what you did to repair my Model 700. (Did you see the letter I wrote that was with the rifle??) You made me feel confident that the rifle will not discharge again while unloading, (but I'll still be cautious.)

Since this was a problem since I first purchased the rifle I'm attaching a copy of the cost for me to ship it to you. A TOTAL cost of \$35.85. See attached invoices.

Thank you
J. Deek
