

Mr. Jack Cast

Enclosed are the salvaged
parts of a 22-250 Vermont
Special model 700 BDL

which exploded with me

I was unable to obtain
case that blew from
Gunsight stock was
completely destroyed and
split and splintered

Please contact me on
what you decide to
do if gun is repairable
or replace I sent
my target scope off to
Leupold and had it repaired
I'm not asking for
doctor bills to be paid
or any thing like that
all I want is my
gun repaired or replaced
which ever you decide
if not replace or
repairable I would like
to trade parts in a
something else I have
missed out on a lot
of varmint hunting as
a result of the gun accident
and really need something
to shoot.
