

Service,

This gun will fire when
the safety is pushed on.

This rifle has never been used,
and the clip + trigger guard
the finish is coming off. If
possible I would like to get
this fixed also

Trigger pin rusty - Replace TA,
mag Box, and guard N/C as gesture
of goodwill. Charge 230145.
FLS 11/19/03

Thanks,
Billy Farr
