

1-5-95

see Remington Arms Co.

I am sending you my Model 700, 22-250 Rem. Serial # A6261901 rifle about which I spoke to you today 1-5-95. This rifle has fired at least 5 times after switching safety selector to fire position on a chambered round. Needless to say, it needs fixing. I was told to send the rifle UPS and mark it to the attention of Jack KAST. I will put pertinent info below. Please notify me of repair/adjustments necessary. Hope to have rifle returned soon.

Thank you
O.C. Hamm
