This Rifle was a gift From my Wife
 as a X-MAS Present (1981-1982). I can't remember
 the ~~the~~ correct year. It was bought from Best Product Ser
 Lubbock, Tx. She says it was in the Box and not on
 Display! She also Bought a Weaver Scope from them
 which they installed for her!

I went to shoot at targets to ck + set
 scope! After firing approx. 4-5 rounds, the next
 one I injected into chamber went off 2-3 seconds
 after Injection! The Barrel was warm + I thought
 it was the problem! I shot 1-2 more rounds + every-
 thing seemed OK!! Scope was set + Gun I thought was OK but
 always had that question if it was in my mind!! Because of
 that I put it up + never used it!! Then about 1991-1992
 my oldest son ~~was~~ went hunting with his cousins down in Brownwood, Tx
 He had always admired this rifle + wanted to use it! I went over the
 problem it might possibly have and told him he could use it But to be extremely
 careful!! When he returned he said it also went off with him!!
 Well that was it for this rifle!! Out of the 2 original
 boxes of Remington 270 shells a total of sixteen had been

WAS Put back up, Just To Look at + saw I had one!!

I SAW ON T-V this yr where a man having
270 WAS INSURED by it going OFF AND WAS SHOT!!
I Knew then that I did HAVE problem!! What To do now?
My Boss is a Active hunter + shooter. HE Reloads his own shells
For contests + His friend is also always hunting + Going to shoot-off
Contests and wins a lot of them. They were discussing a Elk Hunt
this yr. I said I had a Remington 270 that had a problem
it had discharged by itself two or more times!! They have had
SPECIAL guns + Rifles built for them and wanted to look at it!!
My Boss Tom Nations Disassemble it To Discover that
