

11-28-94

Dear Customer Service,
I am sending Remington
Mod. 700 serial # C6218170 CAL. 7mm
back to you for the second (#2)
time.

Customer says he is shooting
for ammo Remington, when he puts
safety on, opens bolt, loads gun
with four rounds, chamber round,
closes bolt, pushes safety off into
fire position gun goes off! (Jive)!

Also says with safety in
fire pos. opens bolt, loads gun with
4 rounds, chamber round, closes bolt
gun fires.

I tried what he described and
could not duplicate this problem. I
did not take gun apart. I am sending
gun directly back to you. I am shipping
gun for my customer. Please advise if
you want me to send customer's name
address & phone No.

Thank you
Jack Ott
