

①

April 14, -94

This Gun Model 700,
ired several times. The
time I used it was 1980
' kept the gun under lock
ever since the mishaps.
I injected a shell in to the
rber & the gun fired, when
osed the bolt. Also misfired
the safety was pressed.
I am very afraid of this gun,
' not want to sell it for fear
eone getting hurt or killed.
I like the gun for I am not sure
the farm.
After I saw the Show 60
ites, about Remington model
ifels, I became concerned after
I saw. I am mailing it
to you as of our conversation
honesty earlier this month.

②

I kept the gun clean & safe as
possible. Please check it out
& if major problems, please notify
me. If it needs adjusted
or what ever, please do so.

Thank You
