

11-13-91

Dear Remington Arms Co.

I have a couple of problems
I would like you to fix.

- 1) When you work the Bolt
action and bring it down to
the lock position it fires the
gun. This has happened twice
Both times the gun was
on SAFA.
- 2) When ~~you~~ push the bolt release
button up, to drop the bolt
out, the button sticks up.

Also would you please send
me some information on
cleaning and caring for my gun,
to make sure I'm doing it
correctly. Thanks.

Any questions or problems call.
