

Mr. Jim Stekl

1/24/91

The delivery of this rifle is a year overdue. It has been impossible to get a Remington box for shipping. As you can see we had to improvise.

The .270 discharged when I closed the chamber on a live round. A friend of mine, who is a gunsmith, looked at the weapon without taking it apart. He also was able to make the firing pin move without pulling the trigger.

I purchased the rifle in 1976 and have put less than 75 rounds through it.

I hope you have the answer. I am thankful to God that the weapon was in a safe position when it fired.
