REMINGTON 25-06. MODEL 700 BDL.
SERIAL NO - C6537676

THIS RIFLE WILL MISFIRE. SOUNDS LIKE
IT WILL SNAP. BUT DOES NOT FIRE.
WHEN YOU RAISE THE BOLT THE RIFLE FIRES
ON ITS OWN. JUST HAPPENS SOMETIMES
I FIRED ABOUT 40 ROUNDS BETWEEN MISFIRES.
HAS MADE ME MISS TWO BUCK DEERS
ONE LAST YEAR ONE THIS YEAR. SEEMS TO
HAPPEN IN EXTREME COLD TEMPERATURE. ALSO
WILL NOT HOLD BUT TWO SHELLS IN THE CLIP.
THE THIRD SHELL WILL NOT STAY IN CLIP.

I THINK ON THE RIGHT SIDE OF THE BREACH WHERE THE
BOLT SLIDES ON THERE IS A SHIVER OF STEEL BROKE
OFF IT HAS BEEN THAT WAY SINCE IT WAS NEW

THANKS. JERRY W MEANS
