Re: 700 BDL

Dear Dennis:

I spoke with you today about my rifle and how it will fire occasionally when you lift the bolt action to remove a shell from the chamber.

I would appreciate it if you would replace the old bolt so that I can remove a shell from the chamber without taking the gun off safety.

Please call me if you have any questions.

Thank you for taking care of this matter.

Very truly yours,

Jack B. Marr
