Gentlemen. -

Under separate cover, via U.P.S.
insured, I am forwarding my Remington
bolt action, model 700, 270. Serial
C-6250206. I purchased
this weapon approximately 5 years
ago, & have used it every fall since
on antelope & deer hunts in Wyoming.
Two years ago, on one occasion,
this weapon -fired as I took the
safety off. I have thought about
this mis-fire virtually every time

I have used this weapon. I am an experienced hunter (47 years at hunting), & have owned numerous Remington weapons. I can think of no other explanation for this mis-fire other than that aired recently on "60 minutes".

On calling your customer service dept & explaining this situation, they suggested I send the weapon to you & that it would be given a thorough inspection & maintenance to insure it's safety. As I'm sure you are aware, this is both your companies & my

own best interest. Feel free
to contact me if you have any
questions regarding this incidence.
I look forward to your contacting
me regarding your findings.

Respectfully.

Todd Martin
