I am the owner of the
Remington 30.06 Bolt Action model 700
rifle in this box serial No. #178249.

Up North in November of 1993 I was deer hunting with my family, went out in morning to hunt and returned to Cabin @ 10:30 AM when I went to take the safety button off to release the bolt to unload it, when all of a sudden the gun discharged, thank-god I had sense to point the rifle in the air while I unloaded it. Otherwise we may have had a tragedy.

P.S I seen the special on this gun on 60 minutes, before the gun discharged on me.

PLEASE find out what caused this and fix so it doesn't happen again.

Thank-you so much
JAMES W MARCHESE
