

ROADWAY

 Years of Service

Dear Sir:

Enclosed is a Remington 700 BDL in a 243

sometimes the gun will miss fire and then some
times when on safe or with safe off and you chamber
a round it will go off when you close the Bolt.

Please Sir This gun is a couple years old and when
the customer was telling us about it and he told
us it has done it since he had bought it. I tell
him he's buying in and we would bend in, because
he is scared to use it and didn't blame him.

Please for under warranty. Call if any questions
Thank you
