Memo

From
MELANIE J. STINE

To Good Day Herb,

Enclosed is 700 Bol which I talked to you about on the phone 5/1. Customer has been unhappy with this rifle since he purchased it from another dealer. Several years ago, we sent it to you because you could only fit 2 rounds into magazine. When the rifle was returned, you could load 3, but bolt face scrapes against ~~and~~ top round.

He also did not like trigger pull, so he took it to a "gunsmith" to have it worked on. Now, if you cock the bolt, put it on safety, then pull

632 Big Horn Ave.

(307) 347-2891

the trigger hand - take it
off safety or open bolt it
fires. I explain to customer
that when "anyone" works on
triggers that isn't authorized by
Remington, it voids all warranties.

He understand this, and
wants rifle fixed. Would you
please send estimate of repair
to me to make sure he wants to
spend what it take to repair
the safety.

Thanks.

Duloni
