Sir/Madam

I am the owner of a Remington
700 Rifle, 6mm Serial # A6466102.

The trigger mechanism does not work
properly any more. You cannot pull the
trigger to shoot gun, but if you
move the bolt the gun will shoot.

Please send me information regarding
repairs needed to correct problem, cost
of parts (trigger assembly) needed, and
address of where to ship gun, plus
how to ship, and approximate time to repair.

Thank you,

David F Osborne Jr.
