From the desk of ...

Charles O Malley

att.

Charlie used
this rifle on
Nov. 18, 2000. I
had a nice 10 point
Buck in front of
me. I pulled rifle
up. pulled trigger
all I heard was a
click. I layed rifle
down. I leaned my
Browning 270. over the
back of stock, the
7 mm. went off.

"Still Serving America" ^{over}

Delayed firing
Upon receipt the semi auto
Cam & bolt stop release
were working sluggish.

The complete trigger assembly & action
was dirty & covered with a
sticky substance.

Rifle properly maintained

Rebuilt trigger assembly & clean action at 1/2 M5P
