

12-13-90

Dear Mr. Stekl,

To review our conversation of December seventh, this is the rifle we spoke of. This weapon discharged twice when safety was released. My sixteen year old son was holding it on both occasions when the discharge occurred. This endangered his life as well as the lives of seven other men in our hunting club who were all with him when the gun went off. This has caused my son to be untrusting of this rifle. Naturally he can't ever use it again. I trust that your company will review this situation carefully and act accordingly. Please contact me with Lexington's decision at 717-587-5793. Thank you for

your help.

Sincerely
Donald P. Shiffer Jr.
