Gentlemen,

Enclosed is a Remington 700BDL .243 cal. serial number A6306546 that was purchased from my store in April of 1990. The customer returned it to me for repair because the rifle went off without pulling the trigger, heres the story...

...the owner of the rifle had chambered a round. When she tried to place the rifle on safety, it would not go... the safety lever would not move. Then she tried to open the bolt and the rifle fired...

Please repair any and all safety defects on this rifle and return it to our address above as soon as you can.

Sincerely,

Sean P. Smith, Manager
